

Assessments Guide

At the Center for Internet Security (CIS), there are many assessments available for enhancing a cybersecurity program. Where should your organization begin? Using the scenarios outlined below, review the assessments offered by CIS and the Multi-State Information Sharing and Analysis Center (MS-ISAC). Identify one or many assessments that fit your organization's needs and utilize the alignment mapping to see how your organization can use each. There is no limitation when it comes to using an assessment. Choose one or many to increase your organization's cybersecurity maturity.

Scenario	Assessment	Description	Framework Mapping	Resource Link(s)	Alignment to Other Assessment(s) in This Guide	Example Steps
 Our organization must complete the NCSR for a grant requirement.	National Cybersecurity Review (NCSR)	The NCSR is an annual, no-cost, comprehensive self-assessment available to all U.S. State, Local, Tribal, and Territorial (SLTT) government organizations. The NCSR is a requirement for both the State and Local Cybersecurity Grant Program (SLCGRP) and the Homeland Security Grant Program (HSGRP).	The NCSR is directly based on the NIST Cybersecurity Framework. Participants have a period of time to submit their answers as part of the assessment. Once complete, reports are generated mapping the question set and submitted answers to the CS Critical Security Controls (CS Controls), HPMA, PCI, and NIST 800-53.	https://www.cisecurity.org/ncsr-participants.html NCSR & CS RM: "Identify Risk Assessment" and "Identify Risk Management" are both sections within the NCSR question set. Consider also using CS RMA, the Center for Internet Security's Risk Assessment Method. If you don't have a risk assessment implemented. NCSR & CS CSAT: The NCSR is aligned to the CS Controls and Implementation Groups (IGs). By taking either the NCSR or using the CS Controls Self-Assessment Tool (CS-CSAT), you can assess conformance to the CS Controls. NCSR & Foundational Assessment: Take the Foundational Assessment if you have not participated in the NCSR before. This assessment will help familiarize an organization with foundational cybersecurity activities ahead of taking a larger assessment.	<ul style="list-style-type: none">1 Take the Foundational Assessment.2 Request a Maturity Review. Foundational Assessment

Our organization has a newly dedicated cybersecurity program. We are not sure where to start with improvements.	Foundational Assessment	The Foundational Assessment contains 37 questions and is designed as a preparation tool to assist organizations with transitioning to a larger assessment like the NCSR. It's specifically designed for organizations that have a new cybersecurity program or that are looking to enhance a current program.	The Foundational Assessment is aligned to the NIST Cybersecurity Framework and the CS Critical Security Controls.	Small Foundational Assessment (CyberSecurity's report across.
