Cluster 3

“What Is News?”

1. Read the illustration on page 546 then read the chart below.

Topic on Survey	2003	2008	2010	
Watch network news	13%		Age 18-49	37%
			Age 50 and older	62%
Watch cable news	49%			39%
All ages enjoy keeping up with the news		52%		45%

Using the data from the two sources, which conclusion could NOT be drawn?

- A. Currently, more people get their news from cable television stations.
- B. From 1999 to 2003, network news viewing had dropped.
- C. People in their 20s enjoy watching cable news when something major is happening.
- D. Currently, older viewers opt to watch network news broadcasts.

LA.910.2.2.1

The correct answer is **C**.

Options A, B, and D are incorrect because they represent incorrect analysis and interpretation of text features.

Data shown in the chart above represents two Pew Research Center surveys and was found at two web sites: journalism.org/node/759 and people-press.org/report/652/. **Option A** is incorrect because this is a true statement based on the table above. The illustration on page 546 reflects data from 1999, and, therefore, does not reflect current trends. **Option B** is incorrect because this is a true statement based on data from the graphic on page 546 which cites data from 1999 and the chart above which cites data from 2003. **Option C** is correct because this is not a true statement based on the data available. The graphic on page 546 mentions statistics for those following the news only when something major is happening, but that data is not age-specific. **Option D** is incorrect because this is a true statement based on the chart above using the data for 2010.

2. The author expresses many reasons why it is important that the reader learn about the news EXCEPT

- F. “But the competitive nature of news reporting can also lead to shorter, more exciting stories that grab the audience’s attention.”
- G. “With the pervasiveness of news today, it is important to take a look at how news affect our lives.”
- H. “By knowing how the news industry works, we can find out how to reach the people who shape the news. Then we can begin to change reporting that reflects stereotyping or bias.”
