Official Gazette Philippines,2001 **Rethinking Corporatization and Public Services in the Global South** David A. McDonald,2014-04-10 After three decades of privatization and anti state rhetoric government ownership and public management are back in vogue This book explores this rapidly growing trend towards corporatization public enterprises owned and operated by the state with varying degrees of autonomy If sometimes driven by neoliberal agendas there exist examples of corporatization that could herald a brighter future for equity oriented public services Drawing on original case studies from Asia Africa and Latin America this book critically examines the histories structures ideologies and social impacts of corporatization in the water and electricity sectors interrogating the extent to which it can move beyond commercial goals to deliver progressive public services The first collection of its kind Rethinking Corporatization and Public Services in the Global South offers rich empirical insight and theoretical depth into what has become one of the most important public policy shifts for essential services in the global South Resources in Education ,1995-04 *Mergent International Manual* ,2003
