

This guide outlines how to cite some of the more common information sources in the Council of Science Editor's (CSE) Style Name-Year system.

For a comprehensive listing, please consult:

Scientific Style and Format: The CSE Manual for Authors, Editors, and Publishers, 7th edition
Call number: T 11 .S386 2006 Reference at: KAM

Name-Year (N-Y) System in CSE

CSE has three documentation systems which provide the same information, but in different formats:

- **Name-Year (N-Y) system:** The author of the source and date of publication are placed in parentheses in the text, e.g., (Smith 2011). References are listed alphabetically in the Reference List. This system is very similar to APA style.
- **Citation-sequence (C-S) system:** Each source cited in the paper is given a number the first time it appears in the text, e.g., ¹. Anytime the source is referred to again, the text is marked with the same number. At the end of the paper, a list of references provides full publication information for each numbered source. Entries in the reference list are numbered in the order in which they are mentioned in the paper.
- **Citation-name (C-N) system:** The reference list is alphabetized, and then numbered. These numbers are used in the text to cite the sources from the list, e.g., ¹.

This guide summarizes instructions for the name-year system only. For guidelines on the citation-sequence and citation-name systems, consult section 29.2.1.2 (pp. 492-495) of the 7th edition of the *Scientific Style and Format : The CSE Manual for Authors, Editors, and Publishers*.

General Rules

Reference List:

- Only include references that have been cited in the body of the paper should be included.
- **Organization:** In the N-Y system, entries are listed in alphabetical order by the name of the first author's last name (or, if there is no known author, by organization name or by the title of the work). The year is placed after the last author's name, followed by a period.
- **Authors' names:** List authors' last names, followed by initials for first and middle names. Do not use periods or spaces between the initials. Do not use a comma between the last name and the initials, e.g., Smith BL. Include all authors' names if a work has up to ten authors; for a work with eleven or more authors, list the first ten names followed by a comma and "et al." (which means "and others"). For works with two authors, do not use "and" or "&" to separate the authors' names.
- **Multiple citations by same author:** If you are citing more than one item by the same author(s), list works in chronological order (oldest first).
