The Chinese City Weiping Wu, Piper Gaubatz, 2013-05-07 China's cities are home to 10 percent of the world's population today. They display unprecedented dynamism under the country's surging economic power. Their remarkable transformation builds on immense traditions having lived through feudal dynasties, semicolonialism, and socialist commands. Studying them offers a lens into both the complex character of the changing city and the Chinese economy, society, and environment. This text is anchored in the spatial sciences to offer a comprehensive survey of the evolving urban landscape in China. It is divided into four parts with 13 chapters that can be read together or as stand-alone material. Part I sets the context, describing the geographical setting, China's historical urban system, and traditional urban forms. Part II covers the urban system since 1949, the rural-urban divide, and migration and interactions with the global economy. Part III outlines the specific sectors of urban development, including economic restructuring, social spatial transformation, urban infrastructure, and urban land and housing. Finally, part IV showcases urbanism through the lens of the urban environment, lifestyle, and social change and urban governance. *The Chinese City* offers a critical understanding of China's urbanization, exploring how the complexity of the Chinese city both conforms to and defies conventional urban theories and experience of cities elsewhere around the world. This comprehensive book contains a wealth of up-to-date statistical information, case studies, and suggested further reading to demonstrate the diversity of urban life in China.

Deciphering the City William A. Schwab, 2005 Globalization has changed the roles of cities in the global economy; the author conveys the need to understand the new order in our world, especially in light of the events of 9/11/2001. This book allows readers to understand how we cope in today's world and why we live our lives the way we do within our communities.

This book begins with an introduction to the phenomenon of globalization and how the changes it has brought about have affected the social political and economic institutions of societies in both the more developed and less developed worlds The book s second section concentrates on the psychology of the city and the community building process while its third section illustrates the city s structure and patterns Finally the author concentrates on urban problems and solutions to them An excellent up to date resource for urban sociologists and others who work in the fields of criminology urban planning health housing research and development **A Matter of Fact Vol. 27** C. Edward Wall,1998-05 **Criminal-states and Criminal-soldiers** Robert J. Bunker,2008 This cutting edge book looks initially at the theoretical and legal side of the emergence of criminal states and criminal soldiers before focusing on the states and the soldiers themselves **Коптская община современного Египта** IЮЮlilЮaЮ Viktorovna Zin'kina,2010
