Edexcel Maograde Boundaries:

2012 GCSE English results Great Britain: Parliament: House of Commons: Education Committee,2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007 09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do **What is a Mathematical Concept?** Elizabeth de Freitas,Nathalie Sinclair,Alf Coles,2017-06-22

Responding to widespread interest within cultural studies and social inquiry this book addresses the question what is a mathematical concept using a variety of vanguard theories in the humanities and posthumanities Tapping historical philosophical sociological and psychological perspectives each chapter explores the question of how mathematics comes to matter Of interest to scholars across the usual disciplinary divides this book tracks mathematics as a cultural activity drawing connections with empirical practice Unlike other books in this area it is highly interdisciplinary devoted to exploring the ontology of mathematics as it plays out in different contexts This book will appeal to scholars who are interested in particular mathematical habits creative diagramming structural mappings material agency interdisciplinary coverings that shed light on both mathematics and other disciplines Chapters are also relevant to social sciences and humanities scholars as each offers philosophical insight into mathematics and how we might live mathematically The Times Index ,2008 Indexes

the Times and its supplements **Business Environment** John Kew,John Stredwick,2005 The text offers an accessible approach to the subject area with a strong focus on the business rather than purely an economic context The style is practical and case study led rather than theoretical and academic The practical implications of theories will be emphasised and practical examples used This accessible text gives a good understanding of the business environment outlining the key environmental influences economic social legal as an aid to developing an appreciation of business strategy at every level The practical implications of theory are emphasised and supported by examples The text includes chapter objectives student activities end of chapter questions a glossary and lists of further reading and there is also a tutor support website The text is

designed to cater for all students studying an undergraduate or postgraduate module in the business environment area the new Managing in a Strategic Business Context module as part of the new CIPD Leadership and Management
