Miller, 1991 *Atlas of Creation* Hârun Yahya, 2006 Some 150 years ago the British naturalist Charles Darwin proposed a theory based on various observations made during his travels but which could not be supported by any subsequent scientific findings In essence his theory of evolution consisted of various scenarios assumptions and conjectures that Darwin dreamed up in his own imagination According to his evolution scenario inanimate substances came together by chance to give rise to the first living cell No doubt this claim was highly inaccurate and one that could not be corroborated by any scientific evidence or findings Again according to that myth this single celled life form

gradually and again by chance turned into the first living species of microbe in other words it evolved According to the evolution error all the life forms on Earth from bacteria on up to human beings emerged as the result of this same imaginary process Darwin s claims were of course based on no scientific evidence or findings But since the scientific understanding and technological means available at the time were at a fairly primitive level the full extent of the ridiculous and unrealistic nature of his assertions did not emerge fully into the light of day In such a climate Darwin s scenarios received general acceptance from a wide number of circles Publisher **Modern Scientific Knowledge of Nature, Man, and Society** Frederick Albert Cleveland,1929 **The Evolution of Arthurian Romance from the Beginning Down to the Year 1300** James Douglas Bruce,1928 *The Book of Popular Science* ,1926 **An Introduction to Sociology** Ernest Rutherford Groves,1928 **Development of Social Theory** James Pendleton Lichtenberger,1923 The Evolution Deceit Hârun Yahya,2001 During the last 140 years Darwinism that rejects the fact of creation and therefore the existence of Allah has caused many people to abandon their faith or fall into doubt Therefore showing that this theory is a deception is a very important duty which is strongly related to the religion **The English Catalogue of Books** Sampson Low,1926 Volumes for 1898 1968 include a directory of publishers The Teleo-mechanics of Nature Hermann Wettstein,1911 **Property and Contract in Their Relations to the Distribution of Wealth** Richard Theodore Ely,1914 The Evolution of Arthurian Romance from the Beginnings Down to the Year 1300 James Douglas Bruce,1923
