

CHAPTER 12

NERVOUS SYSTEM

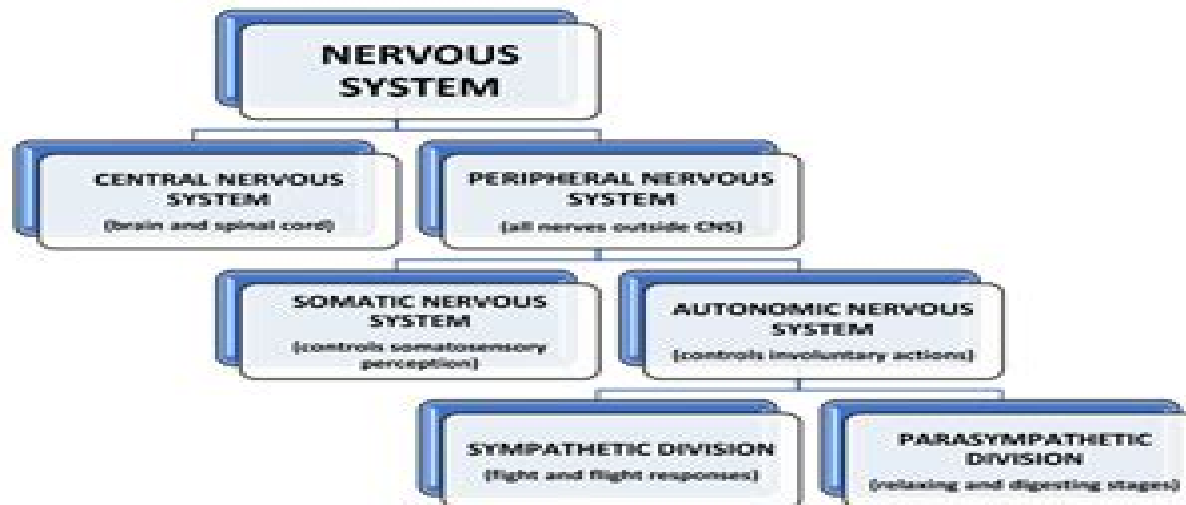

The nervous system consists of the nerves and specialized cells known as neurons that transmit information between different parts of the body. These structures are responsible for controlling the body and communication among its parts to maintain homeostasis.

General Functions of the Nervous System:

1. Sensory – receives stimulus (information about the changes in the environment) from sense organs
2. Integrative – stimuli are gathered and interpreted in the brain
3. Motor – transmits impulses to muscles and glands to elicit a response

Divisions of the Nervous System:

Chapter 12 Nervous System Review Key

Kaplan, Inc

Chapter 12 Nervous System Review Key:

Human Disease and Health Promotion Leslie Beale, 2017-03-22 The essential tools and methodologies for real world patient education Human Disease and Health Promotion offers a comprehensive introduction to health advocacy and patient education in a real world context Covering the epidemiology and pathology of major communicable and non communicable diseases this book details up to date health promotion strategies and communication approaches designed to engage diverse populations These methodologies can inform health promotion efforts You ll learn how to partner with the patient to navigate healthcare systems and services and how to manage the relationship to avoid patient dependence and advocate burn out An extensive guide to common diseases includes details on mechanism treatment epidemiology pathology and attendant psychosocial implications and prevention and control are emphasized to the degree that the patient has the capacity to obtain process and understand the information and services needed to make appropriate health decisions Rich in examples tools and exercises this text includes access to a downloadable workbook that provides additional exercises to reinforce concepts and build essential practical skills Public health education and advocacy is an enormous undertaking with many variables This book helps provides a real world picture of the depth and breadth of the field with clear guidance toward current theory and practice Apply current health literacy theories and participatory patient education strategies Design implement and evaluate programs targeting various groups Analyze and apply new technologies in patient education and health advocacy Understand the mechanisms treatments and epidemiology of common diseases Nine out of ten adults may lack the skills needed to manage their health and prevent disease and over half find it a challenge to self manage chronic diseases and use health services appropriately Human Disease and Health Promotion helps you develop your role as health educator and advocate so you can connect patients with the care and information they need **Study Guide for Understanding**

Pathophysiology - E-Book Sue E. Huether, Kathryn L. McCance, Clayton F. Parkinson, 2011-12-06 Designed to be used in tandem with the Understanding Pathophysiology 5th Edition textbook this study guide provides an in depth review of the most important pathophysiology facts and information Learning objectives Memory Check boxes and practice examinations for each chapter hone your understanding and help you review key concepts from the text This edition also features a greater variety in exercises and more case study questions for further analysis Answers to the practice examinations and a discussion of each case study question can be found in the back of the study guide Comprehensive coverage corresponds with the main text the bestselling pathophysiology text on the market Learning objectives keep your focus on the essential information in the text Memory Check boxes help you remember key points from the text Algorithms include flowcharts of diseases and disorders Practice examinations provide immediate feedback on content learned More than 35 case studies improve your critical thinking skills Answers to case studies and practice examinations appear at the end of the book so you can receive immediate feedback 1000 questions offer complete coverage of all areas of pathophysiology Updated content reflects the

major updates in the main text particularly in the units on mechanisms of self defense cellular proliferation and the neurologic system More case studies and a greater variety of exercises have been added to this edition to strengthen your understanding of textbook concepts *Principles of Anatomy and Physiology, 4th Asia-Pacific Edition* Gerard J.
