

Common Core State Standards

2.OA.A.1 Use addition and subtraction within 100 to solve one- and two-step word problems involving situations of adding to, taking from, putting together, taking apart, and comparing, with unknowns in all positions, e.g., by using drawings and equations with a symbol for the unknown number to represent the problem.

Objective

Solve one-step word problems involving addition and subtraction within 100.

Carla has 16 paper stars. Fatima has 14 paper stars. How many fewer paper stars does Fatima have than Carla?

Add and Subtract to Compare

Children have previously covered compare problems within 20. Now, they will use addition and subtraction within 100 to solve more complex comparing word problems. Using manipulatives and drawings to understand comparing lays the foundation for children to use symbols in later lessons to compare larger numbers, fractions, and decimals.

Vocabulary

Draw 12 balloons and 4 balloons. Present the problem —

Harold has 12 balloons. Glenda has 4 balloons. How many more balloons does Harold have than Glenda?

- *Say:* Show me how many balloons Harold has using Base Ten Blocks.
- *Say:* Now show me how many balloons Glenda has with Base Ten Blocks.
- *Ask:* Compare the two sets. Who has more? [Sample answer: I matched up the blocks, Harold has some blocks that do not match up to Glenda's.]
- *Ask:* How many blocks do not have a match? [8]
- *Ask:* How many more peanuts does Harold have than Glenda? [8 balloons]
- To look at items and see how they are different or the same is to compare them.
