Organization and Financing of Public Health Services in Europe Centers of Disease Control, 2018-06-29 What are public health services Countries across Europe understand what they are or what they should include differently This study describes the experiences of nine countries detailing the ways they have opted to organize and finance public health services and train and employ their public health workforce It covers England France Germany Italy the Netherlands Slovenia Sweden Poland and the Republic of Moldova and aims to give insights into current practice that will support decision makers in their efforts to strengthen public health capacities and services Each country chapter captures the historical background of public health services and the context in which they operate sets out the main organizational structures assesses the sources of public health financing and how it is allocated explains the training and employment of the public health workforce and analyses existing frameworks for quality and performance assessment The study reveals a wide range of experience and variation across Europe and clearly illustrates two fundamentally different approaches to public health services integration with curative health services as in Slovenia or Sweden or organization and provision through a separate parallel structure Republic of Moldova The case studies explore the context that explain this divergence and its implications This study is the result of close collaboration between the European Observatory on Health Systems and Policies and the WHO Regional Office for Europe Division of Health Systems and Public Health It accompanies two other Observatory publications Organization and financing of public health services in Europe and The role of public health organizations in addressing public health problems in Europe the case of obesity alcohol and antimicrobial resistance both forthcoming

The Handbook of Operator Fatigue Gerald Matthews, P.A. Hancock, 2017-11-01 Fatigue is a recognized problem in many facets of the human enterprise It is not confined to any one area of activity but enters all situations in which humans have to perform for extended intervals of time Most problematic are the circumstances in which obligatory action is continuous and the results of failure are evidently serious or even catastrophic Therefore the modern media especially highlights fatigue related failures in industries such as transportation materials processing and healthcare It can be and indeed is no coincidence that most of the spectacular failures in process control that have resulted in the world s largest industrial accidents have occurred in the small hours of the morning when the circadian rhythm is lowest and operator fatigue itself peaks While there have been legislative efforts made at state federal and international levels to regulate working hours of employees the appropriate implementation of such legislation is still a long way off The

Handbook of Operator Fatigue provides a comprehensive account of the subject to serve as the definitive reference work for researchers students and practitioners alike The volume features 30 chapters written by experts from around the world to address each important facet of fatigue including the scale of the fatigue problem Section I the nature of fatigue Section II how to assess fatigue Section III the impact of fatigue on health Section IV fatigue in the workplace Section V the neurological basis of fatigue VI sleep disorders VII and the design of countermeasures to fatigue VIII
