Common Core Poetry Practice Fourth Grade:

Upper Elementary Reading Lessons Marilyn J. Chambliss, Linda Valli, 2011-07-16 Engaging students in worthwhile learning requires more than a knowledge of underlying principles of good teaching. It demands considerable practice as well as images of what good teaching in particular situations and for particular purposes might look like. This volume provides these images. These cases were written from authentic unrehearsed lessons taught by upper elementary classroom teachers to diverse groups of real students in intact classrooms. Each lesson contains elements of sound instructional practice from which both preservice and in-service teachers can benefit. Cases are not meant to be ideal but rather to evoke ways of seeing and thinking about good classroom instruction for all learners. Accompanied by analytic commentaries from experts representing a particular perspective such as special education and ESOL, these unrehearsed cases are written with the understanding that teaching is complex and multi-dimensional. The cases are drawn from a four-year study of 4th and 5th grade mathematics instruction of culturally diverse classrooms with relatively high rates of students from low-income families. Resources in Education, 1992-03. *Becoming a Literacy Leader* Jennifer Allen, 2023-10-10. In this second edition of *Becoming a Literacy Leader: Supporting Learning and Change*, author Jennifer Allen reflects on her work as a literacy specialist and how the role has evolved in the decade since she wrote the first edition. Her experiences can apply to all school leaders including principals, coaches, teachers, support staff, and office administrators. Allen focuses on three ideas to describe her work: Layered Leadership, the multitude of supports in place for teachers to encourage learning and change within schools; Shared experiences that develop community and develop common understanding of practices, curriculum, and assessment; Importance of moving in the same direction in that literacy coaches and leaders stay interconnected and aligned to the goals of the school. Allen knows the challenges of teachers face and advocates literacy coaches implement these layers of support within a school, including in-class support, curriculum support, and assessment, study group facilitation, and the cultivation of teacher leadership. In *Becoming a Literacy Leader*, she provides an explicit framework for implementing these layers of coaching and explains how administrators can use the literacy leader position to build and sustain change within their schools. This book will be the road map for how literacy leaders and coaches approach their work with purpose and intention. Online videos that accompany the book bring the text alive by showing readers what coaching looks and sounds like.
