Compact Commissioning Guide:

DWP's Commissioning Strategy and the Flexible New Deal Great Britain. Parliament. House of Commons. Work and Pensions Committee, 2009 The design and delivery of employment programmes are critical to the success of welfare reform and fundamental to the Government's aspiration of an 80 per cent employment rate The new Flexible New Deal FND programme will be part of the revised JSA regime and will be delivered by large prime contractors who will work with subcontractors at a subregional level Prime contractors will be given longer contracts and have greater autonomy to design individualised support for customers who have been unemployed for more than 12 months The Committee welcomes the move towards longer contracts and endorses the principles of the FND programme and was impressed by the work that Jobcentre Plus staff are undertaking to prepare for the introduction of the new regime Yet there are significant concerns that fundamental flaws exist in the design of FND and the assumptions on which it is based The Department for Work and Pensions DWP accepts that on flows onto FND could be 300 per cent higher than first indicated with implications for resources at the providers and possible delays in implementing FND in some areas The Committee urges DWP to confirm that changes will be made to the budget to reflect the massive increase in predicted onflows to FND It might not be possible for providers to meet the targets on which contractor payments are principally based and the Committee received evidence to suggest that the financial model for FND is flawed and its targets unrealistic It is crucial that DWP and other departments ensure that collaborative working with City Strategies local authorities and other local Partners is facilitated at all levels if joint commissioning is to become a reality [A Practical Guide to Outcome Evaluation](#) Liz Hoggarth, Hilary Comfort, 2010-03-15 For those involved in commissioning and running projects working with people measuring performance and assessing outcomes are an essential part of applying for and maintaining funding This versatile book guides you through the process of evaluating your project in order to improve funding applications and build the case its survival *Electrical Installation Guide* , 2008 **Handbook of Research on Value Creation for Small and Micro Social Enterprises** Maher, Chi, 2018-12-07 In the corporate world businesses are focused on increasing their revenues but ignore the cries of social and environmental concerns from nearby communities At the other end of the spectrum nonprofits seek to help their local communities but are constantly required to create fundraisers without having adequate time to put those collected donations to use The world needs an industry to combine civic engagement and public service with wealth and value creation to provide self sustaining opportunities for public services that are sometimes overlooked or ignored The Handbook of Research on Value Creation for Small and Micro Social Enterprises defines the concept of social enterprise and provides vital insight into the importance of rebalancing creating and promoting economic activities that achieve social fairness cultural fulfillment and the protection of the environment While highlighting topics such as marketing strategies cross cultural frameworks and public policy this publication focuses on empowering rather than controlling sustainable solutions for various communities
