Teacher Development for Content-Based Language Education Susan Ballinger, Ruth Fielding, Diane J. Tedick, 2024-09-10
This book fills a large gap in our understanding of how to prepare teachers for the challenging but increasingly popular task of integrating content and language instruction. It brings together findings on content-based teacher education from Africa, Asia, Australia, Europe, and North America in order to inform researchers and teacher educators and enable them to play a critical role in the continued success of such programs. It offers a solid grounding in theories and applications of content-based approaches with empirical studies investigating teacher identity, materials design, use of cognitive discourse functions, and best practices for teacher education. Responding to the growing popularity of content-based programs and the shortage of qualified teachers for these contexts, this book promotes teacher-researcher collaboration and provides support for trainee teachers, in-service teachers, and course leaders.

Improving Reading Skills Across the Content Areas Rebecca Rozmiarek, 2005-11-11
A must-have must-read resource for every teacher in all subject areas. This is a great book and full of good ideas that every classroom teacher can use. It has ideas that can be used with diverse students: gifted, ESL, Special Education, and everything in between. Rozmiarek makes a substantial contribution to the reading field with this book. Arlene Myslinski, ESL Teacher, Buffalo Grove High School, IL.
In today's competitive environment of standards-based education, improving reading proficiency and increasing content knowledge have never been more important. Yet developing exceptional reading skills in middle and high school students presents many obstacles. In this practical and user-friendly book, literacy specialist Rebecca Rozmiarek shares more than 100 classroom-tested reading activities that will benefit all students in grades 6-12, including gifted, special education, and ELL students. Incorporating years of success in helping struggling secondary students become expert readers, she provides both a jargon-free overview of critical research and activities that every teacher can use to improve reading comprehension and content retention. Student examples and sample modifications show teachers how reading activities can be used in content areas ranging from math and science to social studies and English and more. Each chapter contains:
• A skills overview
• Detailed descriptions of relevant subskills
• Skill-building activities
• An assessment rubric
• Examples of student work
• Blank reproducible of every activity
Learn how to use double-entry journals, text coding, bookmarking, and questioning strategies to help students become more proficient readers. Based on IRA and NCTE standards, these activities foster independence, self-reflection, and motivation in all students.
