*The Twentysomething Treatment* Meg Jay, 2024-04-09 There is a young adult mental health crisis in America So many twentysomethings are struggling especially with anxiety depression and substance use yet as a culture we are not sure what to think or do about it Perhaps it is said young adults are snowflakes who melt when life turns up the heat Or maybe some argue they're triggered for no reason at all Yet even as we trivialize twentysomething struggles we are quick to pathologize them and to hand out diagnoses and medications Medication is sometimes but not always the best medicine For twenty five years Meg Jay has worked as a clinical psychologist who specializes in twentysomethings and here she argues that most don't have disorders that must be treated they have problems that can be solved In these pages she offers a revolutionary remedy that upends the medicalization of

*An Ordinary Age* Rainesford Stauffer, 2021-05-04 Best Book of 2021 Esquire Featured on Good Morning America A meticulous cartography of how outer forces shape young people's inner lives Esquire Best Books of 2021 In conversation

with young adults and experts alike journalist Rainesford Stauffer explores how the incessant pursuit of a best life has put extraordinary pressure on young adults today across our personal and professional lives and how ordinary meaningful experiences may instead be the foundation of a fulfilled and contented life Young adulthood the time of our lives when theoretically anything can happen and the pressure is on to make sure everything does Social media has long been the scapegoat for a generation of unhappy young people but perhaps the forces working beneath us wage stagnation student debt perfectionism and inflated costs of living have a larger more detrimental impact on the world we post to our feeds An Ordinary Age puts young adults at the center as Rainesford Stauffer examines our obsessive need to live and post our best life and the culture that has defined that life on narrow and often unattainable terms From the now required slate of often unpaid internships to the loneliness epidemic to the stress of finding yourself through school work and hobbies the world is demanding more of young people these days than ever before And worse it's leaving little room for our generation to ask the big questions about who they want to be and what makes a life feel meaningful Perhaps we're losing sight of the things that fulfill us strong relationships real roots in a community and the ability to question how we want our lives to look and feel even when that's different from what we see on the Gram Stauffer makes the case that many of our most formative young adult moments are the ordinary ones finding our people and sticking with them learning to care for ourselves on our own terms and figuring out who we are when the other stuff the GPAs job titles the filters fall away
