

chapter 13- the presidency

- The president- the most powerful position in the world
 - Responsibilities of the executive branch increased dramatically in the 20th century
 - Still needs support of congress and public to get things done
 - Hard in **divided government** (different parties control the executive and legislative branches)
- Perspectives on Presidential Power
 - 1950s and 60s, people favored a powerful president
 - By 1970's, presidential power was checked and distrusted

federalist 70 (hamilton)

- Advocated for a single, energetic, executive (president)
- An executive is needed to prevent a weak government, and it could be done two ways:
 - 2 executives
 - Danger of too much debate and disagreement- tear them apart
 - Allows for them to avoid taking responsibility
 - Public doesn't know who's responsible
 - 1 executive
 - Unitary executive to take responsibility for actions and defend against encroachment of legislative on his power
- 2 executive are bad in the executive, but necessary in the legislative
 - Advocating for a bicameral legislature
 - Slows down the process to allow for more careful consideration
 - Prevents tyranny of the majority

basic requirements to be president:

- 35 years old
- Natural-born citizen
- Lived in the US for previous 14 years

who has been the president?

- Mostly white, protestant men

Chapter 13 The Presidency Answers

James Arnt Aune, Martin J. Medhurst

Chapter 13 The Presidency Answers:

The Prospect of Presidential Rhetoric James Arnt Aune, Martin J. Medhurst, 2008 Culminating a decade of conferences that have explored presidential speech The Prospect of Presidential Rhetoric assesses progress and suggests directions for both the practice of presidential speech and its study In Part One following an analytic review of the field by Martin Medhurst contributors address the state of the art in their own areas of expertise Roderick P Hart then summarizes their work in the course of his rebuttal of an argument made by political scientist George Edwards that presidential rhetoric lacks political impact Part Two of the volume consists of the forward looking reports of six task forces comprising more than forty scholars charged with outlining the likely future course of presidential rhetoric as well as the major questions scholars should ask about it and the tools at their disposal The Prospect of Presidential Rhetoric will serve as a pivotal work for students and scholars of public discourse and the presidency who seek to understand the shifting landscape of American political leadership *Study Guide to Accompany Edwards, Wattenberg, Lineberry's Government in America*

Edwards, Matzke, 1997-10 [American Government](#) Scott F. Abernathy, 2017-01-03 Real People Real Stories Real Politics Politics involves people from many backgrounds struggling to make their voices heard Real people telling their stories reflect our ideals choices and collective experiences as a nation In American Government Stories of a Nation author Scott Abernathy tunes in to these voices showing how our diverse ideas shape the way we participate and behave the laws we live by and the challenges we face Each chapter features real stories illustrating how the American political system is the product of strategies calculations and miscalculations of countless individuals Students learn the nuts and bolts of political science through these compelling stories Learning concepts in context is a tested learning technique that works to help ideas stick The key concepts are memorable because they are tied to real politics where students see political action and political choices shaping how institutions advance or impede the fulfillment of fundamental ideas Not only will all students see themselves reflected in the pages but they will come to understand that they too are strategic players in American politics with voices that matter Just like the Full version The Essentials edition is perfect for instructors who don't wish to cover the last three chapters on policy

The End of Greatness Aaron David Miller, 2014-10-07 The Presidency has always been an implausible some might even say an impossible job Part of the problem is that the challenges of the presidency and the expectations Americans have for their presidents have skyrocketed while the president's capacity and power to deliver on what ails the nation has diminished Indeed as citizens we continue to aspire and hope for greatness in our only nationally elected office The problem of course is that the demand for great presidents has always exceeded the supply As a result Americans are adrift in a kind of Presidential Bermuda Triangle suspended between the great presidents we want and the ones we can no longer have The End of Greatness explores the concept of greatness in the presidency and the ways in which it has become both essential and detrimental to America and the nation's politics Miller argues that greatness in presidents is

a much overrated virtue Indeed greatness is too rare to be relevant in our current politics and driven as it is by nation encumbering crisis too dangerous to be desirable Our preoccupation with greatness in the presidency consistently inflates our expectations skews the debate over presidential performance and drives presidents to misjudge their own times and capacity And our focus on the individual misses the constraints of both the office and the times distorting how Presidents actually lead In wanting and expecting our leaders to be great we have simply made it impossible for them to be good The End of Greatness takes a journey through presidential history helping us understand how greatness in the presidency was achieved why it s gone and how we can better come to appreciate the presidents we have rather than being consumed with the ones we want The Politics Of Interests Mark P Petracca,2018-02-19 This is a thematically unified survey of current and significant issues affecting interest group politics and scholarship in the USA Petracca has drawn together interest group scholars and practitioners to write 16 original essays dedicated to making the best and newest research accessible to students at all levels The mix of perspectives and approaches aims to offer a stimulating analysis of contemporary American interest group activity **American Government/Politics Today 1999-2000** Schmidt,James Perkins,Shelley,1998-12-16
