Think Tank Library Paige Jaeger, Mary Boyd Ratzer, 2014-12-04 Transform your library into a think tank by helping teachers create an active learning environment in which students question investigate synthesize conclude and present information based on Common Core standards The rigors of today s mandated academic standards can repurpose

your library's role as a steward of the Common Core State Standards CCSS at your school. This guide will help you help teachers present exciting field-tested lessons for elementary grades K through 5, addressing developmental steps and individual differences in key competencies in the CCSS. Authors and educators Mary Ratzer and Paige Jaeger illustrate how brain-based learning helps students become deep critical thinkers and provide the lesson plans to coax the best thinking out of each child. This tool book presents strategies to help learners progress from novice to expert thinker, challenge younger students with questions that lead to inquiry, incorporate rigor into lessons, and use model lesson plans to change instruction. Beginning chapters introduce the basics of instruction and provide ideas for expert cognitive growth of the brain. Sample lessons are aligned with key curriculum areas including science, social studies, music, art, and physical education.

Supporting Reading in Grades 6-12 Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives beyond the required schoolwork. Supporting Reading Grades 6-12 A Guide addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity, Explore characteristics, history, and awards of creative works, Analyze structure and aesthetic features of creative works, Develop a literary-based product, and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities, support classroom teachers' instruction, and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information skills model, the READS curriculum enables school librarians to deliver a dynamic
