work has proven to be one of the best ways for students to make sense of mathematical problems Students will learn to apply new math concepts employ problem solving strategies communicate with one another and reason through to the answers while working together This book contains several sets of activities for each of the following Common Core high school mathematics domains for Math I Number and Quantity Algebra Functions Geometry and Statistics and Probability You may use these activities as a complement to your regular lessons or in place of your regular lessons if students have the basic concepts but need practice 18 sets of activities each with 4 or 5 separate stations 10 15 minutes per station follo

Resources in Education ,1997 Common Core in a Can! Get More BANG! Out of the Standards Mike

Williams,2015-04-28 The concept for BANG and the other activities included in Common Core in a Can Get More BANG Out of the Standards have been around for many years These highly motivational activities utilize an empty container which would typically be discarded filled with game cards that review a previously taught skill or concept The object of the game is simply to draw out skill cards and avoid the BANG cards which result in the player losing all of his or her game cards If a student is unable to correctly respond to the skill card the card is returned to the can Over the past eighteen years I have developed variations of this game that can be used in nearly every subject area Because it is not technology based activities of this nature appeal to students and encourage actual student to student interaction The hands on interactive components of these activities are also supported by current brain research and promote more efficient assimilation of concepts and effective retrieval of information from long and short term memory These activities have been collected into grade level appropriate publications since most teachers are typically assigned only one grade level Each volume contains six grade level skill activities that are specifically designed to address the Common Core State Standards The 4th grade mathematics skills addressed within this book include multiplication facts to 12 prime and composite numbers factors area perimeter adding fractions with like denominators and compatible numbers subtracting fractions with like denominators and compatible numbers comparing fractions and measuring with metric units Mental math is required for every activity
