Civic Education for SS 1-3 Nigeria. Federal Ministry of Education, 2009 **Teaching Peace and Conflict** Catherine Vanner, Spogmai Akseer, Thursica Kovinthan Levi, 2022-06-14 This book illustrates the multiple roles of textbooks as victim transformer and accomplice to conflict by introducing the Intersecting Roles of Education in Conflict IREC framework for use in the research development production distribution and dissemination of textbooks and learning materials The framework illustrates these three potentially overlapping roles by mapping the complex educational contexts of conflict affected societies and considering how textbooks learning materials and education systems more broadly may simultaneously operate within these various roles Country case studies from Asia Europe Africa and the Middle East are used to analyze primary and secondary school textbook development content and application from a variety of approaches that articulate conflict as protracted and or socio political violence The breadth of case studies shows how conflict discourse circulates in educational systems and materials in a wide range of contexts indicating that the complexity of the relationship between textbooks and conflict is not unique to one culture geographic region or type of conflict **Narrating the Soviet Era in Russian School History Textbooks** Olga Konkka, 2025-09-03 This study focuses on how Russian history textbooks published between 1992 and 2021 dealt with the topic of the Soviet period 1917 1991 Representations of this part of Russia s past in school manuals have provoked vivid debates and bolstered government intervention in the field while a gradual shift towards a less critical narrative of the USSR in more recent textbooks is often presented as directed by Vladimir Putin This study combines research into these texts and inquiry into those who write publish approve or criticize them Bringing together these perspectives provides a more complex view of school textbooks as final products of both top down and bottom up processes This volume is aimed at postgraduates researchers and academics specializing in Soviet history contemporary Russian politics and society and history education and textbooks **Making Curriculum Matter** Angela Di Michele Lalor, 2021-07-21 At the heart of education are two fundamental questions What should we teach and How should we teach it Educators striving to design and deliver the best possible learning experiences can feel overwhelmed by the possibilities To help them make these critical decisions Angela Di Michele Lalor identifies five key priorities of a curriculum that matters practices deep thinking social and emotional learning civic engagement and discourse and equity Emphasizing the importance of schools determining their own path forward Lalor provides a framework for action by Describing how each element contributes to a rigorous meaningful curriculum Providing strategies for incorporating each element into daily instruction and assessment and Offering reflection activities to identify strengths needs and possible next steps With insightful observations research based background information and real world examples from a variety of schools and districts Making Curriculum Matter presents teachers and administrators with a path for reaching their most important overall goal to provide comprehensive meaningful learning to all students *Essential Civic Education for Senior Secondary Schools (SS1, SS2 & SS3)* Gbenga M.
