## **Douze Leccedilons Sur Lhistoire:**

**Douze leçons sur l'histoire** Antoine Prost, 2014-10-02 Tout ce qu'il faut savoir sur l'histoire et le métier d'historien. En douze chapitres qui proviennent d'un cours donné à la Sorbonne. Antoine Prost démontre clairement les tapes de la méthode historique tout en replaçant l'histoire et l'historien dans la société contemporaine et dans sa profession. Cet ouvrage est la fois un traité d'initiation au travail de réflexion nourri par de amples lectures et une pensée originale.

**History as a Kind of Writing** Philippe Carrard, 2017-03-07 In academia the traditional role of the humanities is being questioned by the posts postmodernism poststructuralism and postfeminism which means that the project of writing history only grows more complex. In *History as a Kind of Writing* scholar of French literature and culture Philippe Carrard speaks to this complexity by focusing the lens on the current state of French historiography. Carrard's work here is expansive: examining the conventions historians draw on to produce their texts and casting light on views put forward by literary theorists, theorists of history and historians themselves. Ranging from discussions of lengthy dissertations on 1960s social and economic history to a more contemporary focus on events, actors, memory and culture, the book digs deep into the how of history. How do historians arrange their data into narratives? What strategies do they employ to justify the validity of their descriptions? Are actors given their own voice? Along the way Carrard also readdresses questions fundamental to the field including its necessary membership in the narrative genre, the presumed objectivity of historiographic writing and the place of history as a science distinct from the natural and theoretical sciences.

*Bringing History to Life* Marc-André Éthier, David Lefrançois, 2025-01-21 History has never been as present in our daily lives as it is today. Through any number of media outlets, tens of millions of people are in daily contact with historical discourses and practices. Between games, informational articles, social media posts and other sources, history is everywhere. In *Civilization VI*, live action role playing games, *The Berlin Trilogy*, *Game of Thrones* and the works of Tolkien or Satrapi, this rise in popularity of history along with an unprecedented access to social platforms provide opposing and irreconcilable views of what should be commemorated or debunked, of decolonization and reconciliation and of other historical and social justice questions such as the elimination of police brutality and racism. How can we help our youth develop the critical thinking they need to address these questions? Reflecting on the use of works of non-academic history in the classroom, the authors of this book explore the use of popular or public history to teach historical thinking that will enable students to become informed and engaged citizens.
