Understanding and Responding to the Experience of Disability Jill Porter, 2014-08-13 *Understanding and Responding to the Experience of Disability* informs readers about current understandings of disability and ways of recognizing the needs that arise from the lived experience of impairment in schools While most schools have clear procedures in place with respect to identifying children with special

educational needs the same is not true for disability Moreover research suggests that many schools have restricted understanding of this distinction often equating disability to children with SEN and children with health conditions thereby failing to recognize the pivotal role of impact In this insightful text Jill Porter argues that disability needs to be understood within the setting in which it is experienced thereby recognizing that it is not a fixed attributable label but one that is cultural contextual and fluid By providing a theoretical basis for understandings of disability around notions of impairment experience and impact the book combines three key components a conceptual understanding of disability to provide a clear value driven framework for professional responses an empirical illustration of the development of materials to support an understanding of why the process of disability data collection cannot simply be reduced to two questions on a form embedded illustrative case study material to provide exemplars of how the materials can be contextualized and used to make adjustments to enhance the participation of all children

Exploring Education and Democratization in South Asia Tania Saeed,Radhika Iyengar,Matthew A. Witenstein,Erik Jon Byker,2024-02-19 This volume brings together scholars practitioners activists and students to reflect on socio political transitions taking place in countries across South Asia and their implications for democracy and education It provides an important intervention for comparative education in South Asia by looking at the kind of ideological tensions that exist within the education systems and how these competing agendas are visible at different levels At a time when students have been protesting for their rights across educational institutions in South Asia where the Covid 19 pandemic has exacerbated inequalities with learning losses and job losses this collection creates a space to reflect on the limitations and possibilities of education in democracies across South Asia
