Dr Malachi York Text:

Black Zion Yvonne Patricia Chireau, Nathaniel Deutsch, 2000 This is an exploration of the interaction between African American religions and Jewish traditions beliefs and spaces The collection s argument is that religion is the missing piece of the cultural jigsaw and black Jewish relations need the religious roots of their problem illuminated **Metaphysical Africa** Michael Muhammad Knight, 2020-09-15 The Ansaru Allah Community also known as the Nubian Islamic Hebrews AAC NIH and later the Nuwaubians is a deeply significant and controversial African American Muslim movement Founded in Brooklyn in the 1960s it spread through the prolific production and dissemination of literature and lecture tapes and became famous for continuously reinventing its belief system In this book Michael Muhammad Knight studies the development of AAC NIH discourse over a period of thirty years tracing a surprising consistency behind a facade of serial reinvention It is popularly believed that the AAC NIH community abandoned Islam for Black Israelite religion UFO religion and Egyptosophy However Knight sees coherence in AAC NIH media explaining how in reality the community taught that the Prophet Muhammad was a Hebrew who adhered to Israelite law Muhammad s heavenly ascension took place on a spaceship and Abraham enlisted the help of a pharaonic regime to genetically engineer pigs as food for white people Against narratives that treat the AAC NIH community as a postmodernist deconstruction of religious categories Knight demonstrates that AAC NIH discourse is most productively framed within a broader African American metaphysical history in which boundaries between traditions remain quite permeable Unexpected and engrossing Metaphysical Africa brings to light points of intersection between communities and traditions often regarded as separate and distinct In doing so it helps move the field of religious studies beyond conventional categories of orthodoxy and heterodoxy challenging assumptions that inform not only the study of this particular religious community but also the field at large The Aliites Spencer Dew, 2019-08-20 Citizenship is salvation preached Noble Drew Ali leader of the Moorish Science Temple of America in the early twentieth century Ali s message was an aspirational call for black Americans to undertake a struggle for recognition from the state one that would both ensure protection for all Americans through rights guaranteed by the law and correct the unjust implementation of law that prevailed in the racially segregated United States Ali and his followers took on this mission of citizenship as a religious calling working to carve out a place for themselves in American democracy and to bring about a society that lived up to what they considered the sacred purpose of the law In The Aliites Spencer Dew traces the history and impact of Ali s radical fusion of law and faith Dew uncovers the influence of Ali s teachings including the many movements they inspired As Dew shows Ali s teachings demonstrate an implicit yet critical component of the American approach to law that it should express our highest ideals for society even if it is rarely perfect in practice Examining this robustly creative yet largely overlooked lineage of African American religious thought Dew provides a window onto religion race citizenship and law in America The Usual Saga Christopher Henry, 2013-12-04 Jase is doing a gym work out and as he comes to a finish a couple of guys ask him

about his portable Lap top computer It is immediately clear to Jase that these guys are up to something Jase is not big on strangers although he will hear them out At the same time he is very vigilant in doing so The Man of Many Faces Yovan
