Web 2.0 Tools in Concept Teaching Zeynep Tatlı, Ali Şükrü Özbay, 2021-11-30 Currently students are interested in more than one thing at the same time preferring to use visuals and infographics rather than writing in the learning process In addition these students use technology better in the education process as in all aspects of daily life as they meet technology at an earlier age than

their teachers Therefore teachers should also update themselves according to these learner characteristics In particular assessment and evaluation are two of the topics that students may not enjoy to their fullest extent This book serves to make the assessment process fun and interactive as well as to inform teachers about the different applications they can do in this process It invites teachers to introduce highly interactive applications and make their classes active in the learning process
