Downbelow Station The Company Wars:

Downbelow Station C. J. Cherryh, 2008-12-02 The Hugo Award winning science fiction novel about a space station caught in the crosshairs of an interstellar war perfect for fans of space opera and military science fiction A hell of a story io9 The Beyond started with the Stations orbiting the stars nearest Earth The Great Circle the interstellar freighters traveled was long but not unmanageable and the early Stations were emotionally and politically dependent on Mother Earth The Earth Company which ran this immense operation reaped incalculable profits and influenced the affairs of nations Then came Pell the first station centered around a newly discovered living planet The discovery of Pell s World forever altered the power balance of the Beyond Earth was no longer the anchor which kept this vast empire from coming adrift the one living mote in a sterile universe But Pell was just the first living planet Then came Cyteen and later others and a new and frighteningly different society grew in the farther reaches of space The importance of Earth faded and the Company reaped ever smaller profits as the economic focus of space turned outward But the powerful Earth Fleet was still a presence in the Beyond and Pell Station was to become the last stronghold in a titanic struggle between the vast dynamic forces of the rebel Union and those who defended Earth s last desperate grasp for the stars

Heavy Time C.J. Cherryh, 1992-03-01 Discovered alone and without his memory on his drifting ship pilot Paul Dekker is accused of the murder of his crew members and he must rely on the help of renegade miner Morris Bird to learn the truth Reprint

Alternate Realities C. J. Cherryh, 2000-12-01 Port Eternity Their names were Lancelot Elaine Percivale Gawain Mordred Lynette and Vivien and they were made people clone servants who worked aboard The Maid an anachronistic fantasy of a spaceship They had no idea of their origins from those old storytapes of romance chivalry heroism and betrayal until a ripple in the space time continuum sucked The Maid and her crew into a no man s land from which there could be no return and they were left alone to face a crisis which their ancient prototypes were never designed to master Wave Without a Shore Freedom was an isolated planet off the main spaceways and rarely visited by commercial spacers It

wasn't that Freedom was inhospitable the problem was that outsiders tourists and traders claimed that the streets were crowded with mysterious blue robed aliens Native born humans however denied that these aliens existed until a planetary crisis forced a confrontation between the question of reality and the reality of the question Voyager in the Night Rafe Murray his sister Jillian and Jillian's husband Paul Gaines like many other out of luck spacers had come to newly built Endeavor Station to find their future Their tiny ship Lindy had been salvaged from the junk heap and fitted to mine ore from the mineral rich rings which circled Endeavor But their future proved to be far stranger than any of them imagined when a collision with a huge alien vessel provided them with the oddest first contact experience possible What Makes This Book So Great Jo Walton, 2014-01-21 A remarkable guided tour through the field a kind of nonfiction companion to Among Others It's very good It's great Cory Doctorow Boing Boing As any reader of Jo Walton's Among Others might guess Walton is both an inveterate reader of SF and fantasy and a chronic re-reader of books In 2008 then new science fiction mega site Tor.com asked Walton to blog regularly about her re-reading about all kinds of older fantasy and SF ranging from acknowledged classics to guilty pleasures to forgotten oddities and gems These posts have consistently been among the most popular features of Tor.com Now this volume presents a selection of the best of them ranging from short essays to long reassessments of some of the field's most ambitious series Among Walton's many subjects here are the Zones of Thought novels of Vernor Vinge the question of what genre readers mean by mainstream the underappreciated SF adventures of C. J. Cherryh the field's many approaches to time travel the masterful science fiction of Samuel R. Delany Salman Rushdie's Midnight's Children the early Hainish novels of Ursula K. Le Guin and a Robert A. Heinlein novel you have most certainly never read Over 130 essays in all What Makes This Book So Great is an immensely readable engaging collection of provocative opinionated thoughts about past and present day fantasy and science fiction from one of our best writers For readers unschooled in the history of SF this book is a treasure trove Publishers Weekly starred review **Merchanter's Luck** C. J.
