Draft Commission Notice Guidelines On Vertical Restraints:

Coherence in EU Competition Law Wolf Sauter, 2016 An examination of how competition law maintains its coherence this volume charts the historical development of the EU competition regime and its path to decentralized enforcement as well as studying the coherence of the regime s goals boundaries rules and exceptions The More Economic Approach to EU Antitrust Law Anne C Witt, 2016-11-17 In the late 1990s the European Commission embarked on a long process of introducing a more economic approach to EU Antitrust law One by one it reviewed its approach to all three pillars of EU Antitrust Law starting with Article 101 TFEU moving on to EU merger control and concluding the process with Article 102 TFEU Its aim was to make EU antitrust law more compatible with contemporary economic thinking On the basis of an extensive empirical analysis of the Commission s main enforcement tools this book establishes the changes that the more economic approach has made to the Commission s enforcement practice over the past fifteen years It demonstrates that the more economic approach not only introduced modern economic assessment tools to the Commission s analyses but fundamentally changed the Commission s interpretation of the law Emulating one of the key credos of the US Antitrust Revolution thirty years earlier the Commission reinterpreted the EU antitrust rules as aiming at the enhancement of economic consumer welfare only and amended its understanding of key legal concepts accordingly This book argues that the Commission s new understanding of the law has many benefits Its key principles are logical translate well into workable legal concepts and promise a great degree of accuracy However it also has a number of serious drawbacks as it stands Most worryingly its revised interpretation of the law is to large extents incompatible with the case law of the European Court of Justice which has not been swayed by the exclusive consumer welfare aim This situation is undesirable from the point of view of legal certainty and the rule of law C.M.L.R. Antitrust Reports , 2002 **Non-Competition Interests in EU Antitrust Law** Or Brook, 2022-07-28 This book is the first to empirically study the role of non competition interests in Article 101 TFEU enforcement **Northwestern Journal of International Law & Business** , 2003 **Competition Policy Newsletter** , 2008 **The Reform of EC Competition Law** Ioannis Kokkoris, Ioannis Lianos, 2010-01-01 This book represents a fresh approach to EC competition law one that is of singular value in grappling with the huge economic challenges we face today As a critical analysis of the law and options available to European competition authorities and legal practitioners in the field it stands without peer It will be greatly welcomed by lawyers policymakers and other interested professionals in Europe and throughout the world Competition Law of the European Community , 2010 Commission and EC Courts this authoritative new edition of a classic work stands alone Like its predecessors it will be of immeasurable value to both businesspersons and their legal advisers **UNICE Information** UNICE (Organization), 1998 **European Union Competition Policy** Commission of the European Communities, European Commission. Directorate-General for Competition, 2004 *Shipping Conferences Under EC Antitrust Law* Luis Ortiz Blanco, 2007-05-28 Liner conferences are among the oldest surviving cartels

in the world Created in the 1870s they have existed on all the world s shipping routes With the approval or tacit acquiescence of governments everywhere they fix freight rates control capacity and share markets The United Nations Code of Conduct for Liner Conferences 1974 granted them global recognition and prompted the EC to recommend Member States to join the Convention on the Liner Code 1979 and to grant them the most generous and extraordinary block exemption from EC antitrust rules ever 1986 The EC Commissions administration of the block exemption has clarified some of its aspects and to a certain extent limited its scope but until very recently it has not questioned the appropriateness of the exceptionally lenient treatment of liner shipping cartels in the EU After a report by the OECD Organisation for Economic Co operation and Development Secretariat 2002 recommending abolition of antitrust immunity for shipping cartels in member countries the European Commission launched a review of the block exemption 2003 which has not yet finished and suggested that the authorization for liner conferences should either be repealed or severely limited This book studies first the origins the early history and the regulation of liner conferences in the world and in the EC focusing in particular on the regulation which granted a block exemption to liner conferences Then the book examines one by one the four conditions for a block exemption to be granted under EC law and concludes that none of them is fulfilled by shipping cartels Finally it recommends that the block exemption is repealed and proposes some alternative scenarios and solutions for the adequate enforcement of antitrust law in the maritime sector Shipping Conferences under EC Antitrust Law the only study of Shipping Conferences examines one of the great anomalies in world trade law Corporate Practice Series ,1978 **Product Distribution and Marketing** ,2010 *Global Issues in Antitrust and Competition Law* Eleanor M.
