Forestry in India during British Era traces the history of the evolution of scientific forestry in India during the British era 1800 1947 A special emphasis of the narration is on the State of Karnataka which was under British domination partly directly through the Bombay and Madras Presidencies and somewhat indirectly through the Princely States of Mysore Hyderabad Sandur and a few others Besides describing the developments of forestry together with the circumstances that led to these developments the book assesses their long term impact on the forests as we see them today It provides a graphic account of the birth of the forest departments and the hurdles they had to face in their bid to be effective in guarding the forests the last vestiges of nature from the verge of imminent extinction Forestry in India during British Era has critically examined some of the important causes that led to forest destruction such as the large scale expansion of agriculture the heavy withdrawal of biomass the extensive shifting cultivation in the Ghat forests etc It also objectively analyses what the forestry scenario would have been like today had the process of forest reservation not been zealously initiated about 150 years ago and if these forests hadn t been steadfastly and arduously guarded by the forest departments throughout these years      The Indian Forester , 1909      **Schlich's Manual of Forestry: Forest policy in the British Empire** William Schlich, 1922      *Reliving the memories of an Indian forester: Memoir of S Shyam Sunder* Shivsharan Someshwar, 2020-01-01

Shyam Sunder s education in Mangalore and later in Madras followed a course predestined for entry in to the forest service In the Madras Presidency of the early 1950s selection to a Class I government post was highly coveted as well as restricted by numerous fences of exclusion However he succeeded due to several unusual events he narrates vividly in this memoir One of his early forestry mentors cautioned Shyam Sunder you ll either go very far or will lose your way I advise you to be careful As a researcher forest administrator and later as head of the forest department he always chose to do what felt right Inexplicably that hastened success throughout his career Except for a short period of two years when he lost most of his hair thanks to a despondent boss Shyam Sunder s career was a dream come true With the affection of 10 000 staff full support of the chief ministers he served under and ample confidence of the government

Shyam Sunder made Karnataka a model state for forestry in India. He retired in 1989 as the Principal Chief Conservator of Forests. Shyam Sunder loved Jerome K. Jerome's *Three Men in a Boat*. To say nothing of the dog due to the similarity between the trip depicted in the book up and down the Thames and his own career. In both cases, life was interesting while not always smooth, whether it was protecting forests in the Western Ghats from insatiable societal demands, working with ministers intent on getting their way or striving to achieve conservation goals while being part of a labyrinthine bureaucracy. Under his leadership, partnering with a staff of ten thousand officials, the forest department of Karnataka became the envy of departments across the country. Shyam Sunder's memoir is a series of vignettes from numerous comedic to a tragic few. The life narrated is varied and never short of excitement, being ten yards from a charging tusker or a foot away from a King Cobra, defying orders of the chief minister, being hauled up for contempt of the high court, and discussing with Indira Gandhi the best way to eat avocados. Possessed of wit and passion, the narration lays bare the hubris of popular discourse on noble forest livelihoods and unflinchingly narrates neglect of rural communities as well as of forests at times by the callous imposition of rules and regulations.
