

Bones of Contention

A Creationist Assessment of Human Fossils

Marvin L. Lubenow

Written for the layperson.

Documented for further study.

Based entirely on fossils accepted unconditionally by evolutionists.

Marvin L. Lubenow has researched the fossil issue for 25 years and frequently speaks and writes to defend the creationist position. He is professor of Bible and apologetics at Christian Heritage College, El Cajon, California.

Cover illustration by Gary Eldridge

This is the most complete and accurate critique of the fossils of the so-called "ape men." The myth of human evolution is completely demolished. The last chapter, repudiating the compromising views of many modern evangelicals on this subject, is illuminating. Lubenow has made an invaluable contribution to scientific biblical creationism.

Henry M. Morris, president
Institute for Creation Research

The material on the dating of the famous skull fossil KNM-ER 1470 is brilliant!

Gerald Aardsma
radiometric dating specialist
Institute for Creation Research

On the question of biological, especially human, origins, Lubenow is not content to merely quote biblical theory (if I may use that word). Like a true scholar he researches in depth the literature in the scientific journals, sifting the evidence, searching out the areas open to interpretation. . . . He does his homework so thoroughly that he makes someone like me who would carry on a dialogue with him (as we did on creationism vs. Darwinism) also do his homework. . . . He is a pleasure to fence with intellectually.

Bones Of Contention A Creationist Assessment Of Human Fossils

James L. Hayward

Bones Of Contention A Creationist Assessment Of Human Fossils:

Bones of Contention Marvin L. Lubenow, 2004-10-01 Seeking to disprove the theory of human evolution the author examines the fossils of the so called ape men *Bones of contention a creationist assessment of human fossils* Marvin L. Lubenow, 1992 *Bones of Contention* Marvin L. Lubenow, 1992 **Evolution Disproven** Michelle Scott MD, 2019-12-03 Imagine having to create a book with no author relying on chance and nature to arrange the letters to write a sentence and then organize the tens of thousands sentences into a book The idea seems ridiculous and yet that is exactly what evolution asks us to believe In *Evolution Disproven* author Michelle Scott draws out the comparison between writing a book and creating life using scientifically based arguments She proposes that using Darwinian evolution to explain the diversity of life is like creating a library filled with books all created by nature Evolution is the book of life written without an author but the creation of life is exponentially more complex than that of a book so much so that all available scientific intelligence combined with supercomputers have never been able to create life from nonlife Even so evolutionary theory tells us intelligence isn't necessary and that nature created life This study examines the extreme mental gymnastics scientists engage in to support their evolutionary theory one that has become a religion to many in the scientific community But creation more than adequately reveals God's power and divinity and there is no excuse for unbelief Creation makes God plain to those who would open their eyes **Fatal Flaws** Hank Hanegraaff, 2008-01-15 As more and more so called experts challenge what the Bible says about the creation of man we must take aim with straightforward Christ centered answers Today's generation is bombarded with theories about humankind and its origins In *Fatal Flaws* now in paperback with a study guide included Hank Hanegraaff keeps Christians from falling prey to corrupting scientific speculation about the origins of life and reminds us that we are God's creation This common sense approach puts the concept of evolution in the grasp of everyday Christians and reminds us that ultimately the key to our purpose in this life comes from understanding whose we are and who created us *Without Absolutes, God Is Not God* Ronald A Train, 2013-01-12 *Absolutes* As a Christian it is foundational I believe to hold to absolutes For example a Christian should have absolutes about God's ontology the principle of being absolutes about theology the study of God absolutes about Christology the study of Christ and absolutes about pneumatology the study of the Holy Spirit Each of the foregoing absolutes I believe impact upon how one constructs a world view and how one considers the wider implications of God's kingdom work hence why I have titled this collection of essays Without absolutes God is not God I guess the reader will be asking him or herself why is there a requirement to hold to absolutes The need for absolutes is not complex In reality the argument determines whether one is a believer or non believer in the triune God A believer will weigh whether God revelationally speaks into this world generally and specifically A non believer will object to such a proposition and as a consequence leave him or herself open to other belief systems To perhaps put it another way a non believer is faced with the choice of deciding whether God is a reality or whether God is a

creation of human imagination Decision making then is crucial when accepting the triune God and his work Does one make a decision to believe in God empirically or does one make a decision to believe in God from a position of faith It is my view that God cannot be known empirically i e by trial or experience but rather he can only be known by faith However it depends on how we define faith Those who accept other belief systems would argue that they too have a faith or a belief in some god or person In the Christian context however faith is an action based on the accepted evidence In other words if one accepts that the written word of God is substantially true 2 Peter 1 20 21 and that the Word of God Jesus of Nazareth is who he is recorded as being or is who he claims to be John 1 1 5 14 6 7 then faith is given substance But I would go further and argue that authentic faith is derived from a spiritual encounter with God which then enables the recipients faith response to be one which is prompted or ignited by God My argument is supported from Scripture 1 Corinthians 12 9 Ephesians 2 8 9 and from personal experience Both of the foregoing references I suggest argue that faith is a gift which has its origin in God Hence faith is not only prompted by God but also sustained by him The analysis of such faith is that it is revelatory and constitutes an utter reliance on who God is and why he exists Revelatory Faith Evangelicals argue that faith is a gift from God However this argument is treated with caution by others Existentialism suggests that faith is made possible and so granted by the gracious approach and self disclosure of being Interestingly at this point there is no great variance between the latter perspective and Martin Luther who argued that faith originates with or is at least aroused by God Contemplating the third article of the Apostles Creed he wrote I believe that I cannot of my own reason or strength believe in Jesus Christ my Lord or come to him But the Holy Spirit has called me by the Gospel enlightened me with His gifts sanctified and kept me in the true faith Modernists also argue that faith constitutes a persons response but only after having been drawn to Gods work of salvation This argument suggests faith to be an a priori act of God an act that prompts recognition that in the Christ God is endeavouring to share his own life This arousal of faith then affects worship praise and prayer and the practise of Christian discipleship The same argument suggests further that the prior love of God and the response of love that it generates are what shape a persons Christian faith Biblical support for these theological reflections is found in Ephesians Creation Rediscovered Gerard J. Keane,1998-10 The author covers the basic question the two basic Evolution theories the concept of Special Creation the discoveries of science the fossil record genetics entropy the age of the universe pointers to a Creator and a number of other questions Not enough can be said for the importance of this book to get the fundamentals right regarding our Origins in order that the rest of our thought and all our actions are based upon the truth **Searching for Adam** Terry Mortenson,2016-10-26 You can believe with great intellectual integrity what the Bible says about Adam and the origin and history of man Though there are a growing number of books out on Adam this one is unique with its multi author combination of biblical historical theological scientific archaeological and ethical arguments in support of believing in a literal Adam and the Fall A growing number of professing evangelical leaders and scholars are doubting or denying a literal

Adam and a literal Fall which thereby undermines the gospel of Jesus Christ the Last Adam who came to undo the damaging consequences of Adam's sin and restore us to a right relationship with our Creator This book is increase your confidence in the truth of Genesis 1:11 and the gospel Enhance your understanding pertaining to the biblical evidence for taking Genesis as literal history Discover the scientific evidence from genetics fossils and human anatomy for the Bible's teaching about Adam Understand the moral spiritual and gospel reasons why belief in a literal Adam and Fall are essential for Christian orthodoxy The End Of Earth Philip N. Moore, 2024-11-01 In this eye opening exploration discover how Moses ancient prophecies on Israel the coming of Jesus and the End Times have striking connections to modern day events Delve into how these timeless predictions align with the unexpected rise of Donald Trump Nostradamus cryptic visions and the eerie legacy of the Kennedy curse With meticulous research this book unravels a complex web of prophetic clues leading to the conclusion that the mystery surrounding the assassination of JFK and its aftermath has finally been solved Prepare to be astonished as you uncover the undeniable threads that tie together history's greatest mysteries with prophetic foresight Is it coincidence or is there a higher plan at work *The Illustrated Origins Answer Book* Paul Stanley Taylor, 1991-03 Concise easy to understand facts about the origin of life man and the cosmos **Creation Research Society Quarterly** Creation Research Society, 2005 Creationism Revisited Colin Mitchell, 1999 The Counter-Creationism Handbook Mark Isaak, 2005-06-30 Addresses over four hundred of the most common claims made by creationists offering a rebuttal for each that is backed up by scientific facts and lists both print and online resources for further information **Christian Scholar's Review**, 1997

The Creation/Evolution Controversy James L. Hayward, 1998-04-30 This collection of 447 annotated references provides an overview of the literature addressing the creation evolution controversy for students teachers lawyers writers historians scientists sociologists clerics and other interested persons Fifty four annotations in the chapter on historical references highlight influential volumes published between 1543 and 1980 classic works that inform the views of later writers These historical works are listed chronologically in order of publication The remaining 393 entries feature books published from 1981 the year of the Scopes II trial in Arkansas to 1996 and include works that address historical sociological philosophical religious cosmological geological biological and anthropological issues surrounding the creation evolution controversy The annotations are written in an informative impartial style Except for references in the chapter containing historical sources and in the chapter featuring works on the history of the creation evolution controversy references are grouped under theistic and non theistic headings An introductory essay describes the history of evolutionary theory and creationism and defines the distinguishing features of each thought system An annotated list of periodicals featuring articles on creationism and evolutionism is also provided With author title and subject indexes **American Book Publishing Record**, 2003 **Workbook B for Handbook of Grammar & Composition** James A. Chapman, 1996 Darwin's Leap of Faith John Ankerberg, John Weldon, 1998 The award winning team of John Ankerberg and John Weldon examines the many

facets of the creation versus evolution controversy As discoveries are made about the universe some evolutionists now admit that much of the new evidence favors creation Fascinating and informative this comprehensive guide is perfect for Christians creation skeptics and those curious about the debate **Darwin's Nemesis** William A. Dembski, 2006 This book reviews and celebrates the life and influence of legal scholar Phillip Johnson and the movement of which he has been the chief architect Eighteen essays provide insights into diverse aspects of intelligent design s engagement with Darwinism The Face That Demonstrates the Farce of Evolution Hank Hanegraaff, 1998 Bible teacher and radio personality Hank Hanegraaff discusses the inadequacies of the theory of evolution in explaining life and outlines the monumental negative consequences of evolutionary thought for modern society M
