William Howse Groser, 1877 **Lowell L. Bennion** Mary Lythgoe Bradford, 1995 Lowell L Bennion is legendary in many circles An LDS institute instructor and professor of sociology at the University of Utah he was never content simply to quantify social ills or to preach against them but actively set out to correct what he could He founded and directed the Teton Valley Boys Ranch served as executive director for the Salt Lake City Community Services Council and organized other charities His heart was with the underprivileged He detested Pharisaism and often quoted biblical passages on the topic adapted to a Mormon ear As your treading is upon the poor I hate I despise your fast days and I will not dwell in your solemn assemblies Take thou away from me the noise of thy songs for I will not hear Woe unto them that are at ease in Zion Bennion passed away in 1996 just after this biography was released leaving an enormous void where he had been a beacon to humanitarian and liberation causes in his community **Administration - Unraveled, Revealing a Unified General Theory** George McCleskey, 2011-12-06 Governing Authority Board of Directors Owner etc is responsible for the enterprise and should exert control of its General Interest through Governing Objectives and to assure conformity with accepted standards of proper business conduct customs conventions and societies legal degrees of freedom and constraints such as laws statutes ordinances regulations etc The Governing Authority should be functional and operative and not just ceremonial and must possess the capability to determine and guide the General Interest of the enterprise They should not simultaneously serve as members of the Administration These are mutually exclusive responsibilities and accountabilities Governing Objectives are the means through which Governing Authority regulates and audits the compliance of Administration and Management with the General Interest of the enterprise Ethical standards of business conduct should be specifically established through Governing Objectives Profit should not be the only objective of the enterprise Administration is a system of principle and process and not one of formula and numbers It is the means through which the functions necessary to develop operate or analyze an enterprise including those that use formula and numbers are accomplished These include management financial accounting manufacturing commercial technical personnel security and whatever else may be necessary for the intended purpose Administration is useful in all manner of human society for all varieties of enterprise such as public business military hospital education etc Its use for the design operation or analysis of an enterprise will yield the best possible result consistent with the abilities and diligence of the designer operator or analyst At least 32 principles and related processes should be consciously and appropriately considered in establishing operating or analyzing an enterprise Most developers operators and analysts of enterprises are not or have not been consciously aware of the 32 administration principles and related processes Relevant principles not consciously considered in developing and operating an enterprise will naturally rationally and unavoidably self implement with random undefined and unintentional results Superior enterprise
