Report Illinois Farmers' Institute, 1922 The Power of Confession Gery Malanda, Confession is a word we have heard often but not truly had a biblical understanding of it Confession has been associated with religion where we confess our sin or has been likened to a declaration Brother Gery Malanda Apostle and Leader of House Of Prayer For All Nations Europe and Teacher on TBN s Voice of Healing UK gives a biblical teaching on what is confession He explores what the bible teaches on confession of sin and the power of the blood of Jesus in cleaning ALL sins Brother Gery highlights the power of exposing the works of darkness by confessing our secret sin using biblical examples as well as sharing from his own personal experiences Through the word of God he demystifies what God meant in forgiving of sin In this book he presents the sacrifice of Jesus Christ on the cross as a salvation package that provides for our salvation healing deliverance and prosperity Finally Brother Gery explores the importance of confessing the word of God in one s life highlighting it s advantages The three components that are involved in a true confession and the power of the tongue in framing the world around you Through this succinct teaching Brother Gery demonstrates the importance of thinking as God thinks saying only what God is saying and doing only what is doing according to His word in transforming yourself and the world around you **Official Report** , 1911

Spinoza, Ecology and International Law Moa De Lucia Dahlbeck, 2018-09-12 This book addresses the use of Benedict Spinoza s philosophy in current attempts to elaborate an ecological basis for international environmental law Because the question of environmental protection has not been satisfactory resolved the legal debate concerning our responsibility for the environment has as evidenced in the recent UN report series Harmony with Nature come to invite calls for a new eco centric rather than anthropocentric legal paradigm In this respect Spinoza appears as a key figure He is one of the few philosophers in the history of western philosophy who cares and writes extensively about the roots of anthropocentrism the core issue of contemporary normative debates in ecology And in response to the rapidly developing ecological crisis his work has become central to a re thinking of the human relationship with nature Addressing the contention that Spinoza s ethics might provide a useful source for developing a new eco centred framework for environmental law this book elaborates a more nuanced understanding of Spinoza s philosophy Spinoza cannot it is argued here simply be reduced to an eco ethicist That is his metaphysics cannot be used as basis of an essentially naturalised or extended human morality At the same time however this book argues that the radicality of Spinoza s naturalism nevertheless offers the possibility of developing a more adequate ecological basis for environmental law **Energy Abstracts for Policy Analysis** , 1986 *Report of the Secretary*
