WHAT'S IN THE BOX

Packed with your T-748 you will find:

- AM/FM indoor antenna
- 4 (M4 x 8mm) screws and 4 rubber feet
- 1 detachable mains power cord
- Measurement microphone for auto calibration
- RCA 4 connector cabled with 2 bifurcations
- Owner's manual in CD-ROM

SAVE THE PACKAGING

Please save this box and all of the packaging in which your T-748 arrived. Should you move or otherwise need to transport your T-748, this is by far the safest container in which to do so. We've seen too many otherwise perfect components damaged in transit for lack of a proper shipping carton, so please - save that box!

INITIAL SETUP

Before you make the first connection to your T-748, you should have the arrangement of your listening room/home theater components and furniture mapped out, at least initially. Unfortunately, a discussion of the vast quantities of loudspeaker placements and listening/viewing positions is beyond our scope here.

CHOOSING A LOCATION

Choose a location that is well ventilated (with at least several inches to each side and behind), and that will provide a clear line of sight (within 25 feet/8 meters) between the T-748's front panel and your position. Receiving/viewing positions - that will ensure reliable infrared remote control communications. The T-748 generates a moderate amount of heat, but nothing that should trouble adjacent components, so long as adequate amounts of air flow. Just nothing that should trouble adjacent components, so long as adequate amounts of air flow. Just nothing that should trouble adjacent components, so long as adequate amounts of air flow.

DEFAULT SOURCE SETTINGS

The following table lists the default SOURCE settings. Note that the audio input settings allow both digital and analog audio input. Digital inputs will always take precedence over analog audio input even if both are connected.

For video output, select the highest quality video format available on your TV/Monitor and label this for your Source CD/P connection from the T-748 to the TV/Monitor. For T-748, this included the HDMI with the other choices being Composite video output.

To modify the above default settings and for a better understanding of how a setting and combinations, please refer to the item above "SOURCE SETUP" in the "VIDEO THE T-748 - SETUP MENU" segment of the "OPERATION" section.
