

The background image is a photograph of a stone wall and a path in an autumnal setting. The path is made of dark stones and is covered with fallen red and orange leaves. The wall is made of rough-hewn stones and also has some leaves on it. In the background, there are more trees and a cloudy sky. The title 'Bones of Crimea' is written in a large, white, serif font, centered over the image. The word 'Bones' is on the top line, 'of' is in the middle, and 'Crimea' is on the bottom line.

William Flack Stevenson

Bones Of Crimea:

Bones of Crimea Phillip Mendenhall, 2014-12-03 Set on the mysterious and volatile Black Sea Bones of Crimea reflects on duality in both time and culture as two stories intersect through a single event in the archaeological record It is the 5th century BC and Khares a weary and stubborn historian from Alexander the Great's expedition to Persia tries to find solace by traveling to the edge of the known world to write about the mysterious native Taurians Twenty five centuries later archaeologists Phillip and his wife Olga return to an excavation at the now ruined Greek colony of Chersonesos The sites tactical location in the past persists to the present day as it is just across a small inlet from the secretive city of Sevastopol home of the Russian and Ukrainian Black Sea fleets Separated by more than 2500 years two explorers unwittingly intersect as a mysterious murder causes war to erupt between two great nations but then surprisingly leads to the prevention of another by its discovery Which leaves only one question just who is responsible
