international perspective the Handbook will provide students scholars and practitioners with an overview of the most pressing issues of Racisms in our time *Extremist Mindsets and Strategies* S. Ali,2015-07-29 Gender Race and Sudan s Exile Politics examines the gendered and racialized discourses and practices of the Sudanese opposition in exile through the opposition movements of the 1990s and early 2000s and discusses the history through which these discourses evolved The military coup that brought the National Islamic Front NIF now National Congress Party NCP to power in 1989 not only forced most political parties trade unions and activists in Sudan into either exile politics or underground activism it also urged many of Sudan s political forces and activists to rethink the meaning of belonging and of the Old Sudan In the mid 1990s this involved a rethinking of the relationship between religion and politics acknowledging Sudan s diversity acknowledging the need to restructure Sudan s economy and politics to ensure equal access and participation for the historically marginalized and committing to self determination for the people of South Sudan The concept of the New Sudan broadly captured this rethinking This book interrogates the relationship between women s

organizations and activism in exile on one hand and nationalist transformative and other political movements and processes on the other. It further discusses transnational coalition building across difference including racial difference between women's organization seeking to transform gender relations in Sudan and South Sudan. **Identity Politics in the Age of Globalization** Roger A. Coate, Markus Thiel, 2010. Despite the homogenizing effect of globalization, identity politics have gained significance; numerous groups have achieved political goals and gained recognition based on, for example, their common gender, religion, ethnicity, or disability. Are each of these groups unique, or can comparisons be drawn among them? What is the impact of globalization on identity politics? The authors of *Identity Politics* offer a comprehensive analytical framework and detailed case studies to explain how identity-based collectives both exploit and are shaped by the new realities of a globalized world.

Civilizing World Politics Mathias Albert, Lothar Brock, Klaus Dieter Wolf, 2000-01-19. *Civilizing World Politics* offers an innovative approach to the changing contexts of global politics, moving beyond the ever more fuzzy debate on globalization to a concept of world society that transcends the nation-state and embraces communities including nongovernmental organizations. It brings together research from various fields of political science, sociology, and social theory in new ways, successfully introducing U.S. students of international affairs to contemporary continental research in a way that enlightens as it civilizes.

Border Politics Cengiz Günay, Nina Witjes, 2016-12-09. In the light of mass migration, the rise of nationalism, and the resurgence of global terrorism, this timely volume brings the debate on border protection, security, and control to the centre stage of international relations research. Rather than analysing borders as mere lines of territorial demarcation in a geopolitical sense, it sheds new light on their changing role in defining and negotiating identity, authority, security, and social and economic differences. Bringing together innovative and interdisciplinary perspectives, the book examines the nexus of authority, society, technology, and culture while also providing in-depth analyses of current international conflicts. Regional case studies comprise the Ukraine crisis, Nagorno-Karabakh, the emergence of new territorial entities such as ISIS, and maritime disputes in the South China Sea, as well as the contestation and reconstruction of borders in the context of transnational movements. Bringing together theoretical, empirical, and conceptual contributions by international scholars, this Yearbook of the Austrian Institute for International Affairs offers novel perspectives on hotly debated issues in contemporary politics and will be of interest to researchers, graduate students, and political decision makers alike.
