 Christianson, 2019-02-09 Updates for 2020 We've made edits and updates to the following sections Asthma Atrial Fibrillation  
 Beers Criteria Chronic Kidney Disease Crohn's COPD Diabetes Migraines Hyperlipidemia Parkinson's Sexual Dysfunction  
 Ulcerative Colitis and Vaccines In addition we've created a section on the rapidly growing topic of Pharmacogenomics If you  
 are a pharmacist seeking to become board certified in geriatrics by passing the exam this is a must have study guide We've  
 edited our VERY popular BCPS Bullets book and created a review for the geriatric pharmacy exam based on the Board of  
 Pharmaceutical Specialties content outline With recent PASS rates around 40% you have to have the right tools to pass this  
 exam and this book will help immensely In addition to the exam being very difficult you are likely a busy professional with  
 very minimal free time I've always had a hard time staying focused while studying from large review article type study guides  
 and have squandered hours reading while retaining very little This book is intended to be a crash course cheat sheet  
 overview of the most highly testable material I wanted to remember the really important stuff because I know it is impossible  
 to know every minute detail BCGP Bullets the Condensed BCGP Study Guide will help prepare you for the exam as well as  
 help you maximize your study time We have covered over 100 disease states with critical clinical pearls like drugs of choice  
 drug interactions disease state education and geriatric specific nuggets for certain medications Biostatistics basics important  
 geriatric terminology social financial and emotional considerations are also included in this book Items like elder abuse  
 advanced directives and power of attorney show up in the content outline and we have also outlined the basics of this  
 terminology I can assure you that there is no doubt this book will help in your preparation for becoming a BCGP certified

Fundamentals of Geriatric Pharmacotherapy Lisa C. Hutchison, Rebecca B. Sleeper, 2010-03-24 A change is coming By 2050 the world's 65 and older population will double and the 85 and older population will mushroom fivefold As the number of older adults surge so too will the number of medication management challenges pharmacists and other health care providers experience For the geriatric population complex cases are often the norm and providing safe and effective care can mean considering assessments of function and cognition

contacting multiple prescribers and understanding a patient's history, beliefs, and care giving situation before making therapeutic decisions. *Fundamentals of Geriatric Pharmacotherapy: An Evidence Based Approach* gives practitioners the information they need to improve outcomes and personalize care for elderly patients. Section 1 explores important foundational concepts such as social and behavioral issues, ethical considerations, biomedical principles of aging, geriatric assessment, and polypharmacy. Section 2 covers common disease states in aging adults, providing evidence based treatment information as well as helpful tips for minimizing common problems and contending with clinical controversies. Particular attention is given to how treatment can differ along the spectrum of active elderly to frail elderly patients. Useful features throughout the book guide practitioners in navigating the maze of information required when caring for an older patient. These include Summarized treatment guidelines, Reviews of the evidence base, Special focus on recommendations for frail elderly. At least one full case study or more in each chapter. Clinical Pearls, Key Points highlight important information in each chapter. Key terms and definitions. The demands of an aging population mean a greater understanding of geriatric pharmacotherapy will soon be essential for all health care providers. *Fundamentals of Geriatric Pharmacotherapy* ensures that you'll have the information needed to respond appropriately.
