Bdsm Bondage Discipline Sadism Masochism Volume 1:

Communication in Kink Jessica M. W. Kratzer, 2020-01-29 This edited collection focuses on varying communication perspectives in the Fifty Shades of Grey series. In particular, the chapters focus on kinky people's perceptions of the series, consent, ownership, feminist desire in 24/7 BDSM erotic romance writing in the post-Fifty Shades of Grey landscape, sexual education, news coverage of the series, the rhetoric used in the series, and depictions of consent. The contributors address how a series as dominant in popular culture as Fifty Shades of Grey can affect people involved in a community, those on the outside, and those waiting for an opportunity to explore. Scholars of popular culture, communication, media studies, literary studies, and sociology will find this book particularly useful.

Worldwide Perspectives on Lesbians, Gays, and Bisexuals Paula Gerber Ph.D., 2021-01-26 This three-volume set is a rich resource for readers in any discipline interested in understanding the global, regional, and domestic experiences of LGB people. This interdisciplinary set makes a vital contribution to understanding how LGB rights are progressing and in some cases regressing around the globe. The three volumes look at the lived experiences of LGB people from varied perspectives and provide comprehensive coverage on a wide variety of topics ranging from LGB youth and LGB aging to the approaches to LGB people of different religions, including Islam, Judaism, and Christianity. Chapters focus on topics including the ongoing criminalization of same-sex sexual conduct and how international human rights law can be used to improve the lives of LGB people. Particular attention is paid to the rights of bisexuals, a group often ignored in works focusing on sexual orientation. Volume 1 focuses on history, politics, and culture relating to LGB people. Volume 2 focuses on the laws, domestic and international, governing LGB people, and Volume 3 provides snapshots of the current state of LGB experience in countries worldwide, presented by geographical region: Europe, the Americas, Africa, the Middle East, and the Asia Pacific region.

Being Transgender Dana Jennett Bevan Ph.D., 2016-11-14 Written for general audiences, this unprecedented book comprehensively answers many questions about being transgender with current experiential and scientific information, including the evidence for a biological transgender predisposition. With transgender people visibly achieving fame in entertainment, the literary world, and other arenas, increasing numbers of transgender people are choosing to publicly announce that they are transgender. All of this has brought transgender people and the associated issues of being transgender into mainstream discourse. The demand for fact-based scientific information on being transgender has never been higher. Written by a transgender person who is also a physiological psychologist, this book is the first for general readers that explains what is known about transgender causation, what life as a transgendered individual is like, and the science involved in living a transgender life. This book serves to improve understanding of being transgender among general audiences, including transgender readers, by describing the science and experience of being transgender. It supplies an enlightening understanding of what it feels like to be transgender when it starts, the many paths for living a transgender life, and methods to face challenges such as bullying and rejection. It provides a worldview that

transgender people are neither broken nor diseased but rather that they exhibit transgender behavior because of a biological predisposition for which there is solid scientific evidence
