Classroom Observation Summary Report

Teacher: Sophia Kennedy

Evaluator: Sierra Saylor

Grade Level & Section: Eighth-Washington

Date of Evaluation: June 10, 2050

Room: Room 305

Time of Evaluation: 9:00 AM - 10:00 AM

Instructions: For this Classroom Observation Summary Report, the evaluator is tasked with conducting a class observation for the entire duration of the class while taking down necessary notes to be used in this summary report as well as attached. The evaluator is hereby tasked with answering the following five (5) questions and providing a reason for his/her answer.

Question 1: Is the teacher able to show mastery of the lessons?

Yes, the teacher was able to show mastery of the lessons she was discussing for that certain class. She was able to handle all the questions of the students and right before she gave an activity to test the student's learning and mastery, she was able to give a comprehensive synthesis of the entire discussion.

Question 2: Is the teacher able to create an environment that is open and welcoming for the students?

Yes, the environment of the classroom and the class were very welcoming and open. When the teacher entered the class, she did not immediately start with the discussion, nor did she grill the students about what they learned from the last meeting. Instead, she asked the students how they were and she slowly transitioned to starting the discussion.

Diagnostic Classroom Observation Nicole Saginor, 2008-05-22 The best educators are the best learners It s all about teaching learning and feedback and this book brings common sense to common practice Raymond J McNulty Senior Vice President International Center for Leadership in Education At last a diagnostic classroom observation tool that moves beyond generic criteria for examining teaching and learning This is a must have resource for teachers administrators and professional developers who want to look beyond the veneer of best practice and use evidence based content focused criteria to get to the heart of deep conceptual teaching and learning Page Keeley Senior Program Director Maine Mathematics and Science Alliance A complete instructional leadership system for improving classroom practice Providing effective classroom evaluation is a critical function of authentic instructional leadership Diagnostic classroom observation DCO is a research based system that helps principals and other supervisors carry out classroom observations and evaluations to support effective teaching practices Based on the Vermont Classroom Observation Tool the DCO model covers the entire supervision process from preconference analysis to postconference follow up and includes protocols for observing math science and literacy instruction Program users can determine classroom quality and student engagement by evaluating four critical aspects of instructional practice lesson planning lesson implementation lesson content and classroom culture Additionally the author supplies readers with Classroom observation forms to help identify instructor strengths and weaknesses Scoring forms to assist with the final evaluation and review process Real world vignettes that clearly illustrate key indicators of quality teaching Methods for matching student learning assessments with appropriate instructional strategies Guidance for introducing DCO into any school or school district Diagnostic Classroom Observation offers principals and teacher leaders a thoroughly tested and validated classroom observation system that improves instructional performance and enhances student learning

Developing Effective Policies for HIV/AIDS Education practice in Sub Saharan Africa: The Case of Urban Schools of Malawi: A synergy of pupils needs, policies and practice Paul Makochi, 2014-11 HIV AIDS has been named the Sub Saharan disease In countries that have achieved significant declines in HIV prevalence young people have registered the biggest behavioural changes It means they hold the keys not only to our understanding of the epidemic but more importantly to the efforts required to stem the tide of infections However the majority of young people are ignorant of how to prevent transmission have low compliance to condom use which is in some cases accentuated by misconceptions about HIV AIDS transmission and have insufficient knowledge regarding transmission and avoidance behaviours As such consensus on feasible preventive interventions target young people particularly those in schools It is on this premise that the book unlocks the key pillars in effective HIV AIDS education policies and practices The study has drawn upon the experiences of selected Urban Schools in Malawi to explore the needs of young people in classroom the extent to which the classroom practices respond to the needs and the factors influencing these using questionnaires interviews lesson observations and document

analysis Malawi typically represents most Sub Saharan African countries in terms of challenges faced by education systems Given the similar cultural settings of the people of Sub Saharan Africa the findings and recommendations of the study generalises to the education systems of Sub Saharan Africa to a greater extent The book shows the need for open discussion climates on HIV AIDS issues despite a conservative cultural and religious adult world that is not open It has also identified a need for explicit and accurate knowledge on HIV AIDS issues opportunities to acquire behavioural skills for HIV prevention and involvement of external speakers in classroom HIV AIDS education Current classroom practice does not address the pupils needs adequately Factors influencing this can be linked to lack of policies responsive to culture and religion ineffective and inadequate teaching policy guidelines and lack of a policy prioritising HIV AIDS education The findings suggest that in future effective HIV AIDS Education needs to be informed by the pupils needs To address these needs support from the wider society and related policies coupled with appropriate management and classroom practice will be required The book is therefore an indispensable tool for education systems in Sub Saharan Africa It provides an effective model for the development of effective HIV AIDS policies and practices in HIV AIDS education curricula
