**Clinician's Handbook of Child Behavioral Assessment** Michel Hersen, 2011-04-28 Given the vast amount of research related to behavioral assessment it is difficult for clinicians to keep abreast of new developments In recent years there have

been advances in assessment case conceptualization treatment planning treatment strategies for specific disorders and considerations of new ethical and legal issues Keeping track of advances requires monitoring diverse resources limited to specific disorders many of which give short shrift to child assessment overlooking developmental considerations Much of the existing literature is either theoretical research in focus or clinical in nature Nowhere are the various aspects of child behavioral assessment placed in a comprehensive research clinical context nor is there much integration as to conceptualization and treatment planning The Clinician's Handbook of Child Behavioral Assessment was created to fill this gap summarizing critical information for child behavioral assessment in a single source The Clinician's Handbook of Child Behavioral Assessment provides a single source for understanding new developments in this field cutting across strategies techniques and disorders Assessment strategies are presented in context with the research behind those strategies along with discussions of clinical utility and how assessment and conceptualization fit in with treatment planning The volume is organized in three sections beginning with general issues followed by evaluations of specific disorders and problems and closing with special issues To ensure cross chapter consistency in the coverage of disorders these chapters are formatted to contain an introduction assessment strategies research basis clinical utility conceptualization and treatment planning a case study and summary Special issue coverage includes child abuse assessment classroom assessment behavioral neuropsychology academic skills problems and ethical legal issues Suitable for beginning and established clinicians in practice this handbook will provide a ready reference toward effective child behavioral assessment

**Clinician's Guide to Laboratory Medicine** Samir P. Desai, 2004      *Clinician's Handbook of Preventive Services*, 1994      Negotiating Managed Care Michael A. Fauman, 2008-08-13 For many psychiatrists and other mental health professionals the clinical review is the most burdensome and disagreeable part of managed care In that review they are asked by a representative of the managed care company to justify their patient's need for care and to defend the treatment they are providing Clinicians usually feel at a disadvantage in these discussions because they are never quite sure what information the reviewer needs to approve the patient's care This does not have to be the case The goal of this book is to teach psychiatrists mental health professionals and administrators how reviewers think and how to conceptualize present and document clinical care in a manner that greatly increases the likelihood that reviewers will approve their request for care Beginning with five questions that must be answered in every managed care review the author discusses the following key topics and many others Presenting your case to a reviewer How to effectively present requests for inpatient partial hospital and substance abuse care and avoid common mistakes that decrease the likelihood that your request will be approved How to answer the four clinical questions that must be addressed in every review even if they are not asked by the reviewer Negotiating with the reviewer How to negotiate with a reviewer who is reluctant to approve the care you request Writing effective notes How to write effective clinical notes in the patient's record that substantiate your request for care and increase the likelihood that it will be approved Dealing with

unethical reviewers How to identify and take action against unethical reviewers and managed care companies that are insensitive to your patient's clinical needs Appealing denials of care How to appeal denials of care when you do not agree with the reviewer's decision These and many other important issues are highlighted in brief vignettes illustrating a clinician's presentation of a patient's case and a typical reviewer's comments This tremendously useful volume will be welcomed by every mental health care practitioner who must negotiate the current managed care landscape
