 employer Newman's Billing and Coding Specialist Study Guide Xavier Newman,Xavier R S Newman Nrccs,2012-01-01
 Medical coding professionals provide a key step in the medical billing process Every time a patient receives professional
 health care in a physician s office hospital outpatient facility or ambulatory surgical center ASC the provider must document
 the services provided The medical coder will abstract the information from the documentation assign the appropriate codes
 and create a claim to be paid whether by a commercial payer the patient or CMS While the medical coder and medical biller
 may be the same person or may work closely together to make sure all invoices are paid properly the medical coder is
 primarily responsible for abstracting and assigning the appropriate coding on the claims In order to accomplish this the
 coder checks a variety of sources within the patient s medical record i e the transcription of the doctor s notes ordered
 laboratory tests requested imaging studies and other sources to verify the work that was done Then the coder must assign
 CPT codes ICD 9 codes and HCPCS codes to both report the procedures that were performed and to provide the medical
 biller with the information necessary to process a claim for reimbursement by the appropriate insurance agency This text is
 intended to dispel any ambiguity prior to taking your national certification This text contains over 400 preparatory
 examination questions covering ICD 9 ICD 10 Revenue cycle Medical report extrapolation assignments HCPCS UB04 and

system as it ramps up its use of electronic health records EHRs and other forms of IT to comply with the government's Meaningful Use requirements. It's a tremendous opportunity for tens of thousands of IT professionals but it's also a huge challenge: the program requires a complete makeover of archaic records systems, workflows, and other practices now in place. This book points out how hospitals and doctors' offices differ from other organizations that use IT and explains what's necessary to bridge the gap between clinicians and IT staff. Get an overview of EHRs and the differences among medical settings. Learn the variety of ways institutions deal with patients and medical staff and how workflows vary. Discover healthcare's dependence on paper records and the problems involved in migrating them to digital documents. Understand how providers charge for care and how they get paid. Explore how patients can use EHRs to participate in their own care. Examine healthcare's most pressing problem: avoidable errors, and how EHRs can both help and exacerbate it.
