

BATTLESHIP

Directions: To be played in partner pairs. Try to sink your opponent's ships by guessing correct coordinate points.

On the board titled Your Ships, use a marker to position 1 aircraft carrier which is 5 dots, 1 battleship which is 4 dots, 1 cruiser which is 3 dots, and 2 destroyers which are 2 dots each. Ships can be placed vertically or horizontally, but not diagonally. Remember that ships are placed on specific coordinate points, NOT by filling in entire squares. Player 1 will call out a coordinate point in hopes of naming a point that one of the Player 2's ships is sitting on. If it is a hit, Player 1 will indicate the point on the board titled Your Opponent's Ships with a check mark. If it is a miss, the spot should be marked with an X. On the board titled Your Ships, keep track of hits and misses made by your opponent. A player must let his or her opponent know when a ship has been sunk. The winner is the player who sinks all of his or her opponent's ships.
