**Dimensions of Nursing Management** S. W. Booyens, 1998-01-28 This book details and explains the nurse manager's tasks in a health service organisation giving the practitioner and student a solid in depth grounding in essential managerial skills The text deals with quality assurance and improvement strategic health and human resources planning the design and commissioning of health service facilities group dynamics labour relations job evaluation leadership staff development financial management Appropriate practical examples supplement theory and ensure the relevance of this five part multi authored book which deals with all the basic managerial skills the modern nurse needs to provide a nursing service

*Maternal and Newborn Care* Joanita De Kock, Christa Van der Walt, 2004 The midwife's role is examined in the community and family health context in this handbook on effective maternal and newborn care for midwives and other healthcare providers The skills competencies and knowledge required to make informed decisions about neo and postnatal care are covered including anatomy and the physiology of reproduction high risk pregnancies and labor and birth Theoretical and practical issues illuminate a midwife's role in the prevention of illness in mothers and babies with attention to the unique challenges of midwifery in developing nations Insights from current research studies and critical questions about midwife practice will help those new to health care understand the unique challenges of this form of health service delivery **The**

**Calendar** University of South Africa, 1994 **Postgraduate Study in South Africa** Liezel Frick, Puleng Motshoane, Christopher McMaster, 2016-11-21 The book explores concerns about the lack of higher education transformation around issues of equity curriculum reform language and race and how students navigate higher education complexities Students self reflective abilities creativity and pragmatic approaches to surviving and succeeding are indicators that postgraduate student success is as much internally as externally determined Each chapter speaks from a uniquely South African perspective The editors have tried to remain true to the voice of each contributor while simultaneously providing a coherent body of scholarly work Education Management in Early Childhood Development Corinne Meier, 2007 This title presents the management of Early Childhood Development ECD centres for children from birth to nine years old Working

with indigenous knowledge Fhumulani M. Mulaudzi, Rachel T. Lebesse, 2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timely and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has

remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research
