Transformations Grant David McCracken, 2008-05-12 The reinvention of identity in today's world *America the Philosophical* Carlin Romano, 2013-04-23 This bold insightful book argues that America today towers as the most philosophical culture in the history of the world an unprecedented marketplace for truth and debate With verve and keen intelligence Carlin Romano Pulitzer Prize finalist award winning book critic and professor of philosophy takes on the widely held belief that the United States is an anti intellectual country Instead he provides a richly reported overview of American thought arguing that ordinary Americans see through phony philosophical justifications faster than anyone else and that the best of our thinkers ditch artificial academic debates for fresh intellectual enterprises Along the way Romano seeks to topple philosophy's most fiercely admired hero Socrates asserting that it is Isocrates the nearly forgotten Greek philosopher who rejected certainty whom Americans should honor as their intellectual ancestor America the Philosophical is a rebellious tour de force that both celebrates our country's unparalleled intellectual energy and promises to bury some of our most hidebound cultural clichés

Wealth Vs. Work Allan C. Ornstein, 2012-01-05 Wealth vs Work How 1% Victimize 99% is about the vanishing American dream growing inequality in America shrinking and struggling middle class plight of labor and unions economic decline of the nation and a broken and unstable world surrounding the U S Education is no longer the great equalizer We are heading toward a world where inherited privilege trumps excellence and meritocracy Carried far enough it means the end of striving and the American dream Few Americans realize or want to admit it Since recorded history workers have been victimized by the rich and super rich treated as fungible and disposable The early warlords and monarchs have been replaced by the titans of industry and masters of the universe on Wall Street The slaves peasants and serfs have been replaced by miners factory workers and service sector workers The GM model of the 1950s and 1960s that permitted labor to become middle class has been replaced by the Wal Mart model characterized by low pay and minimal benefits By 2025 the economic output of China and India may likely each exceed the U S Moreover the U S work force is being increasingly displaced by technology and outsourcing But we are supposed to be the lucky ones By historical and geographical accident the U S has been spared most of the world's poverty and misery Today however the U S is heading towards a financial oligarchy much worse than the aristocratic old world that our Founding Fathers feared and tried to avoid Yes the U S had a revolution but in fact it has a new and more powerful elite because the economic pie has expanded several thousand fold since the yeoman farmers status was compared to the plantation owner Right now the top 1 percent in the U S own nearly 40 percent of the nation's wealth moreover their investments capital gains and dividends are taxed at a lower rate than workers salaries Like all great civilizations that have declined before us we are a nation that needs to re-examine its ideals and institutions

Nixon's Vietnam War Jeffrey P. Kimball, 1998 The signing of the Paris Agreement in 1973 ended not only

America's Vietnam War but also Richard Nixon's best laid plans. After years of secret negotiations, threats of massive bombing and secret diplomacy designed to shatter strained Communist alliances, the president had to settle for a peace that fell far short of his original aims. *Cultural Reverse I* Xiaohong Zhou, 2020-08-27. The phenomenon of Cultural Reverse emerged in the 1980s after China's reform and opening up. In this era of rapid social change, the older generation started to learn from the younger generation across many fields in a way that is markedly similar to the biological phenomenon of The old crow that keeps barking fed by their children from ancient Chinese poetry. In this book, the author discusses this new academic concept and other aspects of Chinese intergenerational relations. In the first volume, the author explains some popular social science theories about generations, traces the history of Chinese intergenerational relationships, and through focus group interviews with 77 families in mainland China, comprehensively discusses the younger generation's values, attitudes, behavior patterns, and the ways in which they differ from their ancestors. The book will be a valuable resource for scholars of Chinese sociology and also general readers interested in contemporary Chinese society. *Empire of Knowledge* Vinay Lal, 2005. Offering a dissenting perspective on the politics of knowledge, this book is a powerful critique of the intellectual and cultural assumptions that underline the current processes of development, modernization, and globalization. The author demonstrates that the world as we know it today is understood largely through categories that are the product of Western knowledge systems. His critique of the existing world order and his vision of possible futures encourage the reader to engage in the study of the West. Rather than merely reversing Orientalism, such a study would create a body of knowledge about the West that would enable people to better understand both themselves and the West. This important and lucidly written book deconstructs the cultural assumptions that have emerged alongside capitalism and offers a devastating critique of the politics of knowledge at the heart of all powerbroking. *Lingua Franca*, 1995. *Shared Wisdom* Pamela Cooper-White, 2024-11-19. For twenty years, clinical pastoral educators, congregational caregivers, chaplains, pastoral psychotherapists, and pastoral theologians have turned to Pamela Cooper White's *Shared Wisdom* to ground their teaching, training, and understandings of countertransference and how the use of the caregiver's self in turn impacts the relational dynamic between caregivers and care seekers. Now Cooper White updates her groundbreaking book to present new insights on how understanding one's own emotional reactions remains a core competency for ministry. With precision and depth, Cooper White continues to innovate the theory and practice of spiritual care, counseling, and spiritual psychotherapy. This revised and expanded 20th anniversary edition explores current research on countertransference and intersubjectivity, mutual influence and unconscious relationships, and intercultural and interreligious dynamics in caring relationships. Cooper White examines how the relational paradigm for pastoral assessment and theological reflection that she pioneered now has important implications for evolving types of care relationships. As she does so, she addresses emerging topics such as postcolonial theory, spiritual and religious fluidity, and gender diversity. CPE supervisors, pastoral care, and counseling.
