Clinical Documentation Specialist Training:

The Clinical Documentation Improvement Specialist's Complete Training Guide Laurie L. Prescott, 2014-10-23

Your new CDI specialist starts in a few weeks. They have the right background to do the job but need orientation training and help understanding the core skills every new CDI needs. Don't spend time creating training materials from scratch. ACDIS acclaimed CDI Boot Camp instructors have created *The Clinical Documentation Improvement Specialist's Complete Training Guide* to serve as a bridge between your new CDI specialists' first day on the job and their first effective steps reviewing records. *The Clinical Documentation Improvement Specialist's Complete Training Guide* is the perfect resource for CDI program managers to help new CDI professionals understand their roles and responsibilities. It will get your staff trained faster and working quicker. This training guide provides an introduction for managers with suggestions for training staff and guidance for manual use. Sample training timelines. Test your knowledge questions to reinforce key concepts. Case study examples to illustrate essential CDI elements. Documentation challenges associated with common diagnoses such as sepsis, pneumonia, and COPD. Sample policies and procedures.

The Clinical Documentation Improvement Specialist's Guide to ICD-10 Glenn Krauss, 2011-03. Take charge of ICD 10 documentation requirements. The implementation of ICD 10 brings with it new documentation requirements that will have a significant impact on the work of your CDI team. The higher degree of specificity of information needed to code accurately will have a direct correlation to reimbursement and compliance. CDI specialists need a firm understanding of the new code set and the rules that govern it to obtain the appropriate level of documentation from physicians. *The Clinical Documentation Improvement Specialist's Guide to ICD 10* is the only book that addresses ICD 10 from the CDI point of view. Written by CDI experts, it explains the new documentation requirements and clinical indicators of commonly reported diagnoses and the codes associated with those conditions. You'll find the specific documentation requirements to appropriately code conditions such as heart failure, sepsis, and COPD. Learn from your peers. *The Clinical Documentation Improvement Specialist's Guide to ICD 10* includes case studies from two hospitals that have already begun ICD 10 training so you can use their timelines as a blue print to begin your organization's training and implementation. ICD 10 implementation happens in 2013. It's not too soon to start developing the expertise and comfort level you'll need to manage this important industry change and help your organization make a smooth transition. Benefits Tailored exclusively for CDI specialists. Side by side comparison of what documentation is necessary now vs what will be required starting October 1, 2013. Timelines to train physicians in new documentation requirements to ensure readiness by implementation date. Strategies and best practices to ensure physician buy in.
