Clinique des états psychotiques chez l'adulte - 2e éd. Vincent Di Rocco, 2020-06-17 L'ouvrage est parti de cet ouvrage est d'aborder la psychopathologie des psychoses partir des pratiques cliniques Cette approche impose de ne pas seulement penser la psychose d'avoir une théorie des troubles psychotiques mais de penser avec la psychose de saisir les effets des processus psychotiques sur la psyché et sur la rencontre clinique L'ouvrage parcourt l'histoire des différentes théories psychanalytiques des états psychotiques de l'adulte en les situant dans un débat autour de la notion de processus représentatif Tout en fournissant des repères nosographiques essentiels il s'attache à repérer la dynamique psychique présente dans les principaux symptômes que sont le délire et l'hallucination mais aussi dans le rapport au corps L'ensemble prend appui sur des illustrations cliniques

Les psychoses Catherine Chabert, 2010-10-20 L'évolution de la recherche clinique dans le domaine des fonctionnements psychotiques met en évidence la nécessité de distinguer les organisations singulières la nécessité imposée notamment par l'importance des prises en charge thérapeutiques et de leurs particularités On ne saurait aujourd'hui englober dans un seul diagnostic formulé en terme de Psychose les différents cliniciens pluriels de ces graves troubles psychiques Ce quatrième et dernier volume du Traité de psychopathologie de l'adulte est composé de deux parties 1 Fonctionnements limites et psychoses montre le caractère indispensable d'une dynamique diagnostique différentielle si les troubles narcissiques constituent la part commune de la souffrance ils ne témoignent pas d'une atteinte identitaire d'allure dissociative De la même manière les investissements relationnels marqués par la dépendance aux limites de la confusion parfois soutiennent cependant des liens effectifs et repérables 2 Dans Processus de la schizophrénie l'étrangeté de la douleur psychique et de ses manifestations la rupture des liens du sujet avec le monde et avec lui-même l'effacement de la subjectivité et du sentiment de continuité d'exister posent avec une acuité parfois tragique le problème du désinvestissement narcissique et objectal et en montrent les formes les plus diverses
