Thompson, 2011-09 I have spent the better part of the last 53 years taking well over a thousand multiple choice tests As a teenager I struggled through high school Armed with an average IQ and some fairly significant learning disabilities I barely graduating with a 1.4 grade point average However I was smart enough to figure out early on that much of academics and that achieving success in academics had far more to do with the ability to master multiple choice tests than raw intellect From there I began a 35 year study on the art and science of

passing mastering and scoring high on multiple choice tests Despite a very substandard high school GPA I scored high enough on the SAT and the ACT to be accepted to the University of Michigan one of the top academic institutions in the Country Upon graduation from college I accepted a commission as an officer in the United States Marine Corps As a Marine Officer I completed dozens of military and civilian schools including a Masters Degree from Boston University and a Juris Doctor Degree from the University of Detroit School of Law In fact I earned a full ride military scholarship to law school based primarily on the fact I scored so highly on the Law School Aptitude Test 98th percentile Upon completion of law school I passed the Michigan Bar exam on the first attempt scoring 149 points on the multistate the multiple choice portion of the exam which was one question away from automatic passage at 150 they examiners do not need to grade the essay portion I have also taken and applied many of the Marine Corps concepts of discipline and mental toughness to the art of preparing for taking and passing multiple choice tests Resigning my commission and leaving the Marine Corps in 1990 I continued both my education as well as honing my test taking skills I currently hold 12 professional licenses and 5 professional designations which required me to pass several comprehensive and difficult multiple choice examinations I have also attended dozens of professional test preparation courses From those courses I have cherry picked all of the valuable lessons and test taking tips and have included those in this book One of the professional licenses I hold is a paramedic license As a paramedic I have gained a much greater understanding of the anatomy and physiology of test taking Test taking is all about the central nervous system which of course includes the brain However as I explain in this book it is clear that the sympathetic and parasympathetic nervous systems have as much to do with passing and failing multiple choice tests as does the brain Accordingly I have also applied many of those principals in this book [Compass Test Strategy!](#) Test Preparation Inc Complete,2014-10-13 Learn and practice proven multiple choice strategies for paragraph comprehension English grammar word problems and Basic Math Includes FREE Ebook Version Suitable for iPad iPhone any smart phone or tablet If you are preparing for the COMPASS you probably want all the help you can get COMPASS Test Strategy is your complete guide to answering multiple choice questions You will learn Powerful multiple choice strategies with practice questions Learn 15 powerful multiple choice strategies and then practice Answer key for all practice questions with extensive commentary including tips short cuts and strategies How to prepare for a multiple choice exam make sure you are preparing properly and not wasting valuable study time Who does well on multiple choice exams and who does not and how to make sure you do How to handle trick questions usually there are one or two trick questions to separate the really good students from the rest tips and strategies to handle these special questions Step by step strategy for answering multiple choice on any subject Common Mistakes on a Test and how to avoid them How to avoid test anxiety how to avoid one of the most common reasons for low scores on a test How to prepare for a test proper preparation for your exam will definitely boost your score How to psych yourself up for a test tips on the the all important mental preparation Learn what you must do in the test room
