Common Core Summer Packets:

Living up to Your School Mission Statement Alan C. Jones, 2021-11-15 All school districts have written statements of the educational values and goals that members of the school community believe are important and worth pursuing. They display these on the front page of all school district public relations packets and on the walls of school and district offices. While all segments of the school community enthusiastically embrace the values and goals stated in the documents, rarely if ever do they practice these goals and values in classrooms or administrative offices. The gap between the educational ideals spoken from auditorium stages and the instructional regimes students experience in classrooms is the result of schools designed to achieve institutional goals: accountability, standardization, and efficiency rather than educational goals: thoughtfulness, deep knowledge, and critically informed citizens. This book is aimed at school administrators whose goal is restoring the why of schooling to the organizational structures and instructional routines that currently govern public schooling in this nation.

Feminist Posthumanisms, New Materialisms and Education Jessica Ringrose, Katie Warfield, Shiva Zarabadi, 2020-04-28 This edited collection is a careful assemblage of papers that have contributed to the maturing field within education studies that works with the feminist implications of the theories and methodologies of posthumanism and new materialism, what we have also called elsewhere PhEmaterialism. The generative questions for this collection are: what if we locate education in doing and becoming rather than being? And how does associating education with matter, multiplicity, and relationality change how we think about agency, ontology, and epistemology? This collection foregrounds cutting-edge educational research that works to trouble the binaries between theory and methodology. It demonstrates new forms of feminist ethics and response ability in research practices and offers some coherence to this new area of research. This volume will provide a vital reference text for educational researchers and scholars interested in this burgeoning area of theoretically informed methodology and methodologically informed theory. The chapters in this book were originally published as articles in Taylor Francis journals.

More Than Letters, Standards Edition Sally Moomaw, 2020-08-25 For decades, early childhood educators in high-quality programs have understood that the transition into reading and writing occurs naturally when young children are surrounded by opportunities to interact with print in ways that are meaningful to them. The original edition of *More Than Letters* first published in 2001 showed teachers how to intentionally help children develop literacy skills through hands-on, play-based activities. Like the original edition, the Standards Edition is based on theory and research. It contains new chapters that specifically focus on developing the skills needed to decode literature and informational text. Expanded chapters include activities that target specific concepts included in national literacy standards. [Resources in Education](#), 1997.

Dancing the Data Carl Bagley, Mary Beth Cancienne, 2002 *Dancing the Data* and its interrelated CD-ROM *Dancing the Data Too* show the ways in which educational research and the visual and performing arts can embrace each other to engender a culture of feeling and meaning and in so doing evoke new ways of knowing, learning, and teaching. It

draws on the artistic mediums of dance collage poetry music and drama and invites the reader to engage with the educational research endeavors of the contributors as they seek to move beyond the traditions of established approaches to represent and reflect on their work in artistic forms Dancing the Data seeks to open up conversational beginnings with teachers researchers and students and to tempt them to discuss and reflect on the ways in which established methodological and pedagogical boundaries might be crossed and new ways of seeing and doing valued and explored **The Eagle**
