**Transform Your Math Class Using Asset-Based Teaching for Grades 6-12** Michael D. Steele, Joleigh Honey, 2024-07-19 Foster a love of mathematics by creating a more inclusive and empowering learning environment through asset-based teaching. An asset-based perspective on math education means starting with what students already know instead of focusing on what's missing. This approach elevates student thinking and reasoning skills. In this way, educators acknowledge that all students bring prior experiences, strengths, talents, and resources to the learning process and can contribute meaningfully in an authentic learning environment. *Transform Your Math Class Using Asset-Based Teaching for Grades 6-12* provides insight into asset-based perspectives in mathematics education to create an environment where all students feel valued and capable of being doers of mathematics.
