Enterprise Networking, Security, and Automation Companion Guide (CCNAv7) Cisco Networking Academy, 2020-07-08

Enterprise Networking Security and Automation Companion Guide is the official supplemental textbook for the Enterprise Networking Security and Automation v7 course in the Cisco Networking Academy CCNA curriculum. This course describes the architectures and considerations related to designing, securing, operating, and troubleshooting enterprise networks. You will implement the OSPF dynamic routing protocol, identify and protect against cybersecurity threats, configure access control lists, ACLs, implement Network Address Translation (NAT), and learn about WANs and IPsec VPNs. You will also learn about QoS mechanisms, network management tools, network virtualization, and network automation. The Companion Guide is designed as a portable desk reference to use anytime anywhere to reinforce the material from the course and organize your time. The book's features help you focus on important concepts to succeed in this course.

Chapter objectives: Review core concepts by answering the focus questions listed at the beginning of each chapter.

Key terms: Refer to the lists of networking vocabulary introduced and highlighted in context in each chapter.

Glossary: Consult the comprehensive Glossary with more than 500 terms.

Summary of Activities and Labs: Maximize your study time with this complete list of all associated practice exercises at the end of each chapter.

Check Your Understanding: Evaluate your readiness with the end-of-chapter questions that match the style of questions you see in the online course quizzes. The answer key explains each answer.

How To: Look for this icon to study the steps you need to learn to perform certain tasks.

Interactive Activities: Reinforce your understanding of topics with dozens of exercises from the online course identified throughout the book with this icon.

Videos: Watch the videos embedded within the online course.

Packet Tracer Activities: Explore and visualize networking concepts using Packet Tracer exercises interspersed throughout the chapters and provided in the accompanying Labs Study Guide book.

Hands-on Labs: Work through all the course labs and additional Class Activities that are included in the course and published in the separate Labs Study Guide. This book is offered exclusively for students enrolled in Cisco Networking Academy courses. It is not designed for independent study or professional certification preparation. The Executive's Guide to Information Technology John Baschab, Jon Piot, 2007-07-13

Praise for the The Executive's Guide to Information Technology: This book is important reading. It offers practical, real-world insight and pragmatic, no-nonsense approaches for people who have a stake in corporate IT. Lynda Applegate Henry R. Byers, Professor of Business Administration, Harvard Business School. Information systems and processes are very important parts of our due diligence assessment of a company, yet the jargon is often more difficult to understand than many foreign languages.

Baschab and Piot effectively translate IT into words and concepts that businesspeople can easily understand and act upon This book is a helpful reference guide for corporate executives and private equity groups of all types Neal Aronson Managing Partner Roark Capital Group Business success increasingly depends on effective use of IT Effective use of IT depends on the kind of in depth practical insight in this book Baschab and Piot provide a pragmatic approach to information systems investment that should be required reading for senior executives and CIOs alike Erik Brynjolfsson Schussel Professor of Management Director of the Center for Digital Business MIT This book should provide valuable guidance for management and technology consultants The Executive s Guide to Information Technology provides field proven insight on all important aspects of IT planning and execution from governance to applications to operations and infrastructure Gary J Fernandes former vice chairman EDS member of the Board of Directors Computer Associates Baschab and Piot do a great job of laying out the fundamental issues and challenges that every IT organization faces More often than not the issues are not technical in nature but are a reflection of how the IT and business teams work together to define execute and implement new business tools The threshold issue is leadership Often it is difficult for business leaders to feel that they have the skills and perspective to provide that leadership on technical projects The Executive s Guide to Information Technology provides non technical business leaders a solid framework for engaging with their IT peers Tom Nealon Chief Information Officer J C Penney
