Commonwealth Cost Recovery Guidelines for Information and Regulatory Agencies Australia. Department of Finance and Administration, 2002 Fisheries Management in Australia Daryl Peter McPhee, 2008 Whether it's throwing a fresh local prawn on the BBQ or dangling a line off the local jetty fisheries resources are economically and socially important for many Australians Australian fisheries have undergone significant management changes over the last decade and Australia is now recognised as a world leader This book is a comprehensive analysis of fisheries management in Australia It provides practical insight into the cross disciplinary tools of fisheries management It takes the reader away from the outdated notion of managing the fish to the reality of managing human behaviour It does so without losing track of the fundamental need to consider the ecosystem and its components The book covers a diverse range of contemporary topics including sharing fisheries resources between commercial and recreational fishers marine park planning current regulatory and policy environments consultative and participatory frameworks by catch mitigation and fisheries habitat management It is a must for tertiary students studying fisheries fisheries management professionals the fishing industry and anyone else with an interest in how our valuable but finite fisheries resources are managed **Commonwealth Statutory Rules, &c** Australia, 1912 **Annual report** Australian Fisheries Management Authority, 2004 *Federal Energy Regulatory Commission Reports* United States. Federal Energy Regulatory Commission, *Pricing and Cost Recovery in Long Distance Transport* David Starkie, M.R. Grenning, M.M. Starrs, 2012-12-06 The 1977 BTE Report on Cost Recovery in Australian Transport 1974-75 provided estimates of the aggregate level of financial cost recovery in the various modes by broad transport task It suggested that there were substantial differences between modes in the level of cost recovery The 1979 Transport Pricing and Cost Recovery seminar concluded that economic efficiency objectives required more attention in transport pricing and investment decisions than had been apparent in the past The principles for economically efficient pricing were spelt out and several specific issues were identified which are worth following up in this seminar These include reconciliation of financial and economic efficiency objectives and the identification of appropriate revenue targets specification of the changes in accounting and management information systems which would be required to implement more economically rational pricing and identification of the principles for estimating compensation for public service obligations Finally a brief account is given of recent BTE work on cost recovery in general aviation and in road and rail transport BTE has suggested that economic efficiency considerations would require substantial modification to the present means of collecting revenue from general aviation with more reliance placed on direct pricing measures like flight specific air navigation charges and airport movement charges On road rail competition an order of magnitude comparison of road and rail cost recovery in the Adelaide Victorian border corridor suggests that only the road mode approximately covers short run avoidable costs and that both modes fail to cover long run avoidable costs "*Code of Massachusetts regulations, 2000*"
