## ECOLOGY CENTER

"Overall we believe the world we live in is facing radical change – and our aim is to help find positive futures in the face of that change. To get in shape for the challenges of the future, we need a culture that knows how to sustain the things that sustain us and at the same time nurtures creativity, imagination and adaptability."

"The time has passed when a few influential people could gather in a room to decide what a city will be. Instead, a city's future is determined by hundreds of actions taken daily by thousands of people based on what they believe about a city's future and their role in it."
