The morning brought a spontaneous experience as Sophie and Eve were very excited to share their news with us today. "Me and Eve went to the zoo together yesterday" Sophie said. "We saw a baby monkey, the giraffe and the baby elephants" Eve commented. This turned into a great discussion between the children about the natural habitat of animals. "Lions, elephants and tigers live in Africa" Todd explained. "There are elephants in India too" Maria commented. "Is there a jungle in Africa, that's where they live" Molly questioned. The children were eager to find out more information on where the animals lived. "Can we make our own animals?" Sarah asked. "What do we need?" I asked. "The children thought up of a lot of things they need to make their animals. "Boxes, colored paper, tasters, glue, scissors and paint" Sara said. We all searched for our materials to make our animals. Once the materials were found the children spent most part of the morning planning and creating their animals out of boxes. While creating the animals this lead to the children working together to work out how they will get the boxes to stick together. "The glue doesn't work, the head keeps falling off" Lei commented. "I will hold the box, you try taping it" Harvey suggested. With a little effort and a lot of sticky tape the head was finally in place... "Let's make a zoo tomorrow for the animals we made" Maria asked... Tomorrow will be the creation of the "Preschooler Zoo".

Outdoor play was mostly lead by sand play with the animal figurines. The children also added blocks and pipes to the sand to create habitats for their animals. This lead to ongoing conversation about how to best place the blocks around the sandpit to create the animal homes and which animals were going to be used. Some of the children also spent their time drawing pictures of animals in their habitats which lead to discussions on the best habitat the animal should live. "The tiger lives in the jungle" Steven said. "My tiger lives in the mountains" Fred described. We can't wait for the discoveries and learning tomorrow will bring...

Illinois. Department of Children and Family Services, 1993 Stakeholders' Perspectives on Assessment and Improvement of Quality in Early Childhood Education and Care: A World-Wide Kaleidoscope Antonia Elisabeth Enikoe Baumeister, Hui

Li, Linda Joan Harrison, 2024-08-29 The key aims of early childhood education and care ECEC are to offer children from all social backgrounds a good start in their lives to support parenting as well as families workforce participation and thereby to sustainably strengthen the national economy over current and future generations High quality ECEC has been shown to improve child outcomes and be a buffer against developmental risk factors For these reasons governments ECEC providers

and researchers are placing an increasing focus on the frameworks and systems that underpin quality as well as the measures that assess quality. At the same time however research on ECEC as a multidisciplinary endeavor has shown that the aims and benefits of high quality ECEC can only be reached when all stakeholders' needs are acknowledged and sufficiently met. For example recent evidence suggests that the acceptability and social validity of quality assessment and improvement methods are contested among some stakeholders and thus the sustainability of these quality efforts may be in doubt. New challenges also include the ever changing nature and circumstances affecting ECEC stakeholders for example the greater flows of refugee families and the impact of the Covid 19 pandemic. This Frontiers Research Topic will contribute to an updated knowledge base in order to inform governments providers and the scientific community about best practices and new solutions for conceptualizing measuring and improving ECEC quality. The aim of the proposed Research Topic is to generate a worldwide kaleidoscope of research studies that explore and discuss models for gathering the perspectives of multiple stakeholders and considering the meaningfulness of stakeholder views for conceptualizing assessing and improving quality in ECEC. We believe that greater attention needs to be given to the diversity of stakeholders who are invested in ECEC including government regulatory authorities service providers educators families communities and children. We also believe that wide ranging stakeholder input will generate innovative methods for assessing and improving quality that keep pace with our rapidly changing information society. Two further foci are set on ECEC practices 1 that support participation diversity and inclusion of all children and families and 2 that are suitable for developing countries and diverse populations within countries. In this the focus is not only on best practices but also on the limitations of practices. In soliciting research articles on ECEC stakeholder perspectives we describe stakeholders as inclusive of government non government regulatory agencies service providers teachers and caregivers families communities and children. Themes of interest include but are not limited to Assessment of quality in ECEC including self assessment approaches The design of and use of quality frameworks in ECEC Effects of quality and of quality improvement on children and families Drivers and indicators of quality improvement Acceptance and sustainability of quality efforts among ECEC stakeholders Policy expectations of quality rating and improvement systems e.g. funding policy The role of teacher and caregiver professionalization All types of center based and home based ECEC. We are interested both in quantitative and qualitative research designs as well as in mixed methods research. Cross sectional longitudinal quasi experimental and case study designs are welcome. The following article types are welcome original research empirical studies systematic reviews community case studies policy briefs articles and brief research reports.
