Dibels First Grade Progress Monitoring:

An Examination of the Equivalence of the First Grade DIBELS Oral Reading Fluency Probes Chung-Hau Fan, 2011 Given the change in federal legislation allowing the consideration of a Response To Intervention RTI approach to making eligibility decisions for specific learning disabilities IDEIA 2004 it is crucial to establish sufficient evidence for using curriculum based measurements CBM or CBM like measures e g Dynamic Indicators of Basic Early Literacy Skills DIBELS for monitoring students responses to interventions as part of the identification process for Specific Learning Disabilities One critical component in an effective RTI model is the availability of parallel measures suited for frequent progress monitoring to index student performance over time The current study investigated the equivalence of the twenty first grade DIBELS Oral Reading Fluency DORF progress monitoring probes using a one way ANOVA for repeated measures Participants were 68 first grade students 36 females and 32 males from two Midwestern elementary schools No selection criteria other than parental consent were used The DORF probes were given in a pseudo counterbalanced order across four days at the end of the school year to avoid instruction and practice effects The standard error of measurement SEM of the twenty first grade DORF progress monitoring probes was calculated using alternate form reliability coefficients Results suggested that the equivalence assumption of the first grade DORF was not held Most of the probes were significantly different in their difficulty level from each other and did not yield consistent mean levels of performance The findings also suggested a significant magnitude of score fluctuation at the individual student level The average SEM value was about 9 ranging from 8 to 10 similar to previous research findings using test retest reliability for calculation Limitations educational implications for CBM ORF users and researchers and directions for future research are presented *The Best of Corwin: Response to Intervention* Cara F. Shores, 2011-10-18 The ultimate guide to RTI The Best of Corwin series showcases key chapters from critically acclaimed Corwin publications for a powerful compilation of perspectives on important education issues and topics This resource guides practitioners through the challenging and ultimately rewarding process of implementing response to intervention RTI The chapters address critical factors such as collecting and using valid and reliable data choosing methods that are responsive to individual student needs and implementing processes with fidelity The authors describe RTI through various lenses Behavioral interventions Grade level approaches from elementary through high school Strategies tailored to English learners Specific content areas including reading and math Also included are assessment strategies and a framework for data based decision making Readers will find a variety of perspectives from leading experts who show how to use RTI to help students achieve success in school making this collection a must have for every educator **Academic Assessment and Intervention** Steven Little, Angeleque Akin-Little, 2014-01-21 Serving students with academic deficiencies necessitates communication and collaboration among professionals from several disciplines Academic Assessment and Intervention brings together divergent approaches in order to demonstrate that scientific evidence rather than biases or previous practice must

determine assessment practices that are selected and used for particular purposes Similar to a handbook in its comprehensive topical coverage this edited collection provides a contextual foundation for academic assessment and intervention describes both norm referenced and curriculum based assessment measurement in detail considers the implications of both of these assessments on ethnically diverse populations provides a clear link between assessment evidence based interventions and the RTI model and considers other important topics related to this area such as teacher behavior Intended primarily for graduate level courses in education school psychology or child clinical psychology it will also be of interest to practicing professionals in these fields

RTI in the Classroom Rachel Brown-Chidsey, Louise Brunaugh, Kelly McGraw, 2009-06-08 Written expressly for teachers this book is jam packed with tools and strategies for integrating response to intervention RTI into everyday instruction in grades K 5 Numerous real world examples connect RTI concepts to what teachers already know to help them provide effective instruction for all students including struggling learners Drawing on extensive classroom experience the authors Present color coded intervention recipes for all three tiers of RTI implementation Provide hands on tools and 50 reproducibles with a large format and sturdy wire binding for ease of use Explain the core features of RTI and what they look like in action Describe evidence based instructional methods for reading writing math and behavior Show how to fit assessment and progress monitoring into the busy school day
