My name is Jeremy Maggi. I am a teacher at Orange Glen High School in Escondido, California. I am writing an autobiographical essay, a story about an event in my life and how it changed me. I am writing about a scary meeting I had with a rattlesnake when I was younger to show what I learned and to tell how this event was important to me.

It all happened one summer day in 1995 when I was ten years old. At that time, I was living in Valley Center, California with my parents and my brother. Our house was out in the country and there were many wild plants and animals, and I loved to go on walks with my father through the wilderness. On that day, my father, my younger brother, and I were taking a walk in the bushes outside my house. I wanted to lead, so I walked in front, my brother followed me, and my father was in the back. It was a beautiful day when we started walking; the deep blue sky was above us, the sun shined on us from over our heads, and all around you could hear the buzz of insects and the rustle of the wind on the leaves of the beautiful green bushes. I could smell the lovely smell of the summer flowers all around me.

Suddenly, and without warning, my father rushed to the front and pushed me aside. "Hey! What the heck!" I thought. But, just then, I heard a terrible buzz from where I had just been about to step. I looked and I saw a giant, red diamond-back rattlesnake in the path where I had been walking! His rattle was shaking and he was very angry. I could see his tongue flick in and out of his mouth. His narrow eyes looked at me. I felt my heart pounding in my chest. The cold wind blew on my sweating skin. Now I knew why my dad had pushed me.

We sat there for a while because we didn't want the snake to strike and attack us, and the snake stayed there, too, because he was afraid of us also. We called to our neighbor, Ken, who happened to be out, and he came with a shovel to kill the snake. Clang! With one hit he cut off the snake's head. Ken grabbed the snake by the tail and carried it back home, its blood still dripping on the ground. When he got home, he skinned it and ate it up. Yum! Everything turned out all right after all.

Even though it has been many years, this story still stays in my mind. I remember that day a lot, and I am thankful that my dad saved me from being bitten by the snake. I also learned that I should be more careful when I am walking out in the wild and treat animals with respect. That is why this was an important event in my life.

Miller, 2012-01-01 Transcendental Learning discusses the work of five figures associated with transcendentalism concerning their views on education Alcott Emerson Fuller Peabody and Thoreau all taught at one time and held definite views about education The book explores these conceptions with chapters on each of the five individuals and then focuses the main features of transcendental learning and its legacy today A central thesis of the book is that transcendental learning is essentially holistic in nature and provides rich educational vision that is

in many ways a tonic to today's factory like approach to schooling In contrast to the narrow vision of education that is promoted by governments and the media the Transcendentalists offer a redemptive vision of education that includes educating the whole child body mind and soul happiness as a goal of education educating students so they see the interconnectedness of nature recognizing the inner wisdom of the child as something to be honored and nurtured a blueprint for environmental education through the work of Thoreau an inspiring vision for educating women of all ages through the work of Margaret Fuller an experimental approach to pedagogy that continually seeks for more effective ways of educating children a recognition of the importance of the presence of teacher and encouraging teachers to be aware and conscious of their own behavior a vision of multicultural and bilingual education through the work of Elizabeth Peabody The Transcendentalists particularly Emerson and Thoreau sewed the seeds for the environmental movement and for non violent change Their work eventually influenced Gandhi and Martin Luther King Jr and it continues to resonate today in the thinking of Aung Sang Suu Kyi and the Dalai Lama The Transcendentalists vision of education is worth examining as well given the dissatisfaction with the current educational scene Endorsements A Transcendental Education provides a powerfully hopeful integrative and holistic vision that can help guide education out of its current vacuum The book is thoughtfully explicated expertly synthesized and completely relevant for anyone interesting in helping education find itself Like the transcendentalists themselves this is both down to earth and soaring in its potential implications Tobin Hart author of *The Secret Spiritual World of Children* and *From Information to Transformation Education for the Evolution of Consciousness* The secret to a vital renewed America lies in the life and writings of the Transcendentalist community of Concord Massachusetts in the 19th century Jack Miller who I know has been devoted to a new living form of education throughout his career has written a book that could inspire a revolution in teaching It goes against the tide as do Emerson and Thoreau But it offers a blueprint and a hope for our children Thomas Moore author of *Care of the Soul* A timely account of great thinking on genuine education Reading this today's beleaguered teachers should experience a renewal of spirit and commitment Nel Noddings author of *Happiness and Education* [Encyclopedia of Life Writing](#) Margaretta Jolly, 2013-12-04 First published in 2001 Routledge is an imprint of Taylor Francis an informa company **The College Folio** ,1904 [College Reading and the New Majority](#) ,1989 **The Open Shelf** ,1929 **The Best American Essays 2009** Mary Oliver, Robert Atwan, 2009 Presents an anthology of the best literary essays published in 2014 selected from American periodicals [The Literary World](#) ,1872 **Fiske Real College Essays that Work** Edward B.
